## BOARD WILL FACE PROBE ORDERED BY GRAND JURY

Summons Served on Supervisors; No Hint Given as to the Investigation in Progress

### INFIRMARY CONDITIONS MAY BE GONE INTO

Unusual Affairs in the County Administration Make Hearing One of Import to County

Members of the board of supervisors were subpoenaed this morning to appear before the grand jury at 2 o'clock this afternoon. While it is the custom of the county inquirers to annually call the members of the board of supervisors before it as a matter of routine, it is not known this year whether there is any deeper significance in the county body's action than usual. Supervisors, district attorney and members of the grand jury are non-committal and refuse to discuss the purpose of the supervisors' appearance before the grand jury.

It is admitted by all concerned that unusual conditions obtain this year. The state board of charities and corrections is making an independent probe into conditions at the county hospital and infirmary at the request of the board of supervisors and yesterday the grand jury spent most of the day at the county hospital.

**WILLS WOULD QUIT.**  
The discharge of G. Vandergift, butcher at the county hospital, has, so far, been the only result of the recent goat meat scandal. The threatened resignation of Dr. C. A. Willis, superintendent, and the contemplated dismissal of James Dignan, storekeeper, who was involved in the goat meat scandal, is still hanging fire. Whether the grand jury intends to take up these matters this afternoon is not known. The supervisors do not intend to take any further action has been asserted by members of the board.

Dr. Willis threatened a month ago to resign unless his dismissal as a result of receiving at the county hospital goat meat instead of prime mutton. Twice resignations have been introduced by members of the board providing for the dismissal of Dignan, but neither was accepted. Vandergift was discharged on the night that the goat meat was discovered by Chairman of the Board Daniel J. Murphy.

The present grand jury has shown a disposition to follow up matters of this kind and it is considered likely that it will take some action, or at least remind the supervisors of the fact that the matter has been taken up.

**INQUIRY UNDER WAY.**  
Members of the State Board of Charities and Corrections, who are investigating conditions at the county hospital and infirmary at the request of the supervisors, have been at the institution today. According to Dr. C. A. Willis, superintendent, members of the board, who visited the hospital yesterday, intimated that frequent visits would be paid the institution during the next three months, either by them or some representative of the State board.

"From what was said yesterday," said Dr. Willis, "I understand that the State board's probe into conditions at the county hospital and infirmary will be very thorough and painstaking. Nothing will be overlooked and we may expect an unusually interesting, instructive and constructive report. The members of the Board of Charities and Corrections are experienced sociologists and without question their investigation of the institution will be of great value to the county."

### DRAFT IN CANADA

OTTAWA, Ont., June 7.—Plans for a coalition cabinet have been rejected by Sir Wilfrid Laurier, the Liberal leader, it was definitely announced today. The proposal which was advanced by Premier Borden was rejected on the conscription issue, Laurier holding that the country should first pass on the measure.

### U. S. TAKES ISLAND

WASHINGTON, June 7.—A bill authorizing the government to take possession for use as sites for permanent aviation stations for the army and navy, the whole of North Island, in the harbor of San Diego, Cal., was introduced today by Chairman Dent of the House military committee. The property will be appraised and value paid to the owners.

### MANY ARE KILLED

LONDON, June 7.—A great explosion and fire as a result of the army and navy, the whole of North Island, in the harbor of San Diego, Cal., was introduced today by Chairman Dent of the House military committee. The property will be appraised and value paid to the owners.

## FROST BROKEN BY TRAGEDIES IN DIVER WAR

BY INTERNATIONAL NEWS SERVICE  
LEASD WIRE TO TRIBUNE  
NEW YORK, June 7.—Nervous breakdowns following the many pathetic scenes resulting from German submarine warfare, caused Wesley Frost, United States consul at Queenstown, Ireland, to return with his family to his native land today for a period of rest.

The consul declared on his arrival that he cannot sleep on account of the shrieks of dying women and children which still ring in his ears. In his official capacity he was compelled to witness the result of 81 steamship disasters.

"Ruthlessly sacrificed by a power which has no thought save for victory, the dying cries of these poor unfortunates haunt me day and night," Frost said.

The consul will consult a neurologist before going to Washington to report his activities of the last three years. The German submarine program is only temporary, Frost believes. The U-boats will soon begin another campaign against American, English and French ships, he said.

"However, I look forward to see American inventors hit upon a device which will rid the seas of the submarines," he declared.

## U. S. VESSEL FIGHTS OFF SUBMARINE

BY ASSOCIATED PRESS  
LEASD WIRE TO TRIBUNE  
AN ATLANTIC PORT, June 7.—An American destroyer on patrol off the coast of Ireland recently came upon a German submarine shelling the life boats of a ship it had sunk, killing two persons, according to survivors of a submarine vessel which arrived today aboard an American liner.

The submarine disappeared before the destroyer could get a shot at it, but the survivors of the ship, which was named the *U-107*, told of the rescue of twenty survivors of two ships that had been sent down within sight of each other, taking them to a British port.

The two ships were the Russian bark *Lynx*, from Pensacola, and the German bark *Madura*, from Mobile.

**BY UNITED PRESS.**  
LEASD WIRE TO TRIBUNE  
PARIS, June 7.—Sixty shots were exchanged by the American steamer *Silver Shell* and a German submarine May 30, the minister of marine announced today. The submarine suddenly disappeared.

Sixty shots were fired in a running fight, according to Captain J. Charlton's report. The *Silver Shell* had greater speed than the U-boat.

What caused the sudden disappearance of the submarine was not explained.

The *Silver Shell* is a steel screw steamer of 5336 tons owned by the Shell Oil Company of California and registered at Wilmington, Del.

Details of the fight were made public today by the minister of marine. The *Silver Shell*, commanded by Captain Tom Charlton, sighted the submarine May 30. In the running fight which followed the American boat proved speedier than its enemy and seemed also to be the master in gunnery. The disappearance of the submarine was sudden.

The *Silver Shell* is a steamship of 5336 tons, owned by the Shell Oil Company of California. She sailed from America early in May with a cargo of a state union with whom fifteen are American citizens. Her commander comes from New York.

### MAY BE PROMOTED.

WASHINGTON, June 7.—William J. Clark of New York, a warrant officer from the battleship *Arkansas*, commanded the armed guard aboard the American steamer *Silver Shell*, which sank a German submarine in the Mediterranean.

"It was a splendid piece of work," Secretary Daniels said today, "and we are now considering promotion for Clark, who well deserves it."

The Navy Department announced today that the *Silver Shell* probably sank a U-boat after a battle lasting an hour and a half in the Mediterranean May 30.

## MARE ISLAND BOAT FIRST FOOD SHIP

Collier Jupiter, Electric Drive Vessel, Parts of Which Were Made in Oakland, Eludes U's

American Destroyers on Patrol Duty About France; Navy Is Now Actively in War Work

Successfully eluding the submarines of the German navy and passing, without convoy through the danger zone around France, the Collier Jupiter, one of the largest vessels of its kind in the world, and one of the most important feats in the construction history of Mare Island navy yard, is safe in France, with a cargo of munitions for the allied armies.

This is the news that reached Mare Island and shipping circles here today. The big boat, although it rides high in the water, and would have made a perfect target, according to naval officers, made the trip without any mishap.

The Jupiter, the sister ship of the *Sturm* and the *Electric*, is the first of the electrically driven vessels of the United States navy. Shipping men in Oakland recall the tests made, at the time the vessel was built, when trial cruises about the bay and up and down the coast were made to prove the vessel's efficiency. So efficient were the electric driving devices that they were adopted at once for all cruisers and battleships. The collier is far faster than the usual type, which would enable her to escape submarine attacks under any but unusual circumstances.

The Jupiter was the first large boat built at the island, just before the war. She was designed wholly in California and a number of parts were manufactured in Oakland. According to the navy and other supplies, the nature of which were not announced.

### WARSHIPS IN FRANCE.

PARIS, June 7.—American warships have arrived and are now anchored off the coast of France, an official statement said today.

Le Matin announced that the vessels conveyed from the United States a great transport loaded with wheat. Despatches from a French port declared the American vessels were accorded a tremendously enthusiastic reception. Hugs in Paris and newspapers rejoiced in this latest visible evidence of American aid to France.

Official permission is granted today to announce that great preparations are in progress of disposition of American troops whenever they shall arrive. Camps have been surveyed and assigned, aviation parks laid out and complete details mapped out for General Pershing's expedition to whatever time in the future it may reach French soil.

### WHEAT IS AVAILABLE.

A large American transport containing wheat for American troops which are to come later has crossed the Atlantic under the protection of an American warship, the Matin announced. The transport is now being unloaded at a French port, the newspaper says.

Preparations are being made for the arrival of American troops, the newspaper says further. A number of bases similar to those of the British army have been organized.

Camps have been laid out for infantry and artillery and aviation parks have been established for American aviators.

None of the American officers is bringing his family.

The Matin says the arrival of the transport means that the provision of food for the army is well assured before the arrival of the troops and that accordingly the American forces will make no call on the French stock of food.

### ALSACE FOR PEACE

AMSTERDAM, June 7.—The Landtag of Alsace-Lorraine was opened in Strasbourg Wednesday by the imperial stadtholder, Dr. Von Dallwitz. He said:

"The unpending will to end the war victoriously will further protect our German Alsace-Lorraine."

## PLOT AT OIL PLANT FOILED; GUARD SHOT

Intruder Discovered Climbing Through Wire Fence Shoots When Revealed by Light

Timely Arrival of the Guard May Have Averted Disaster; Miscreant Leaves Two Clews

SPECIAL TO THE TRIBUNE.  
MARTINEZ, June 7.—What is believed to have been a plot to blow up the Shell Oil Company's plant here was frustrated by William Edward Reiser, one of the guards at the place, who was shot as he turned a searchlight on an intruder whom he discovered climbing through a wire fence, at 2 o'clock this morning. As the stranger ran off in full view under the beams of the searchlight, a shot was fired from somewhere in the darkness, striking Reiser in the arm and also damaging the searchlight he was operating as to make it ineffective.

When Reiser and other guards ran to the spot where the intruder was seen, they found lying on the ground a clock attached to a battery. It is surmised that this was part of a bomb, and the authorities believe that the remainder of the infernal machine may be in the possession of possible accessories inside the plant. On this assumption, a close guard has been set about the place so that none of the employees will be able to leave or anyone gain entrance until a full investigation has been made.

**HAT MAY BE CLUE.**  
Near the clock and battery close by the wire fence was found a hat, which was identified today by a local merchant as one he had sold yesterday to a man of German characteristics.

At the time the night prowler was discovered, Reiser, who is a veteran, was unable to say whether the intruder was about to make his escape, a shot rang out from the darkness, the bullet wounding Reiser in the arm. He was later reported to have been shot in the back of the head and died.

### GUARD IS SHOT.

As the powerful rays focussed on one point in the fence they showed a man in the act of climbing over the wires. Almost before Reiser had time to issue a challenge, and while the intruder was about to make his escape, a shot rang out from the darkness, the bullet wounding Reiser in the arm.

The bullet also put out the searchlight, and a search in the darkness for the one or more intruders were unavailing.

## MANY ARE HURT; CROWDS FIGHT IN STOCKHOLM RIOT

BY ASSOCIATED PRESS  
LEASD WIRE TO TRIBUNE  
STOCKHOLM, June 7 (via London).—One man was severely wounded and a score slightly hurt in the disorders and several thousand arrested when the police before the Riksdag building Tuesday.

For some days previously the Socialists of the Left had been urging the workers to cease work on Tuesday and demonstrate before the parliament building when the Socialist interpellations regarding revision of the constitution, shorter work days and higher wages were scheduled to be replied to by Premier Swartz.

Many factories stopped work at 1 o'clock Tuesday afternoon and the employees marched to the Riksdag. They found the approaches to the building and the interior of the building guarded by police and soldiers.

The mob made an attempt to rush the police, who charged fiercely with drawn swords. Many heads were slashed and other serious wounds were inflicted, and trampled upon. There was much bottle and stone throwing but ultimately the police triumphed and the mob melted away.

United States Minister Morris was an interested spectator and once was obliged to give ground to avoid being involved in the melee.

The Left Socialists later decided to demand a general strike throughout Sweden, but the men who went out on Tuesday from the large factories are reported to have resumed work today.

### NEW CHECK TAX

WASHINGTON, June 7.—A new tax of 2 cents on all bank checks and drafts over \$5, expected to raise about \$1,500,000 in revenues, was added to the war tax bill today by the Senate finance committee.

The committee also struck out all House taxes on dues of social, athletic and sporting clubs, from which \$10,000,000 in revenue was expected.

## FEARS DRAFT: ENDS LIFE WORRY CAUSE OF SUICIDE

SAN FRANCISCO, June 7.—Worry because he was not permitted to alter his draft registration card so that he might claim exemption on the ground that he had a mother and cousin in Germany, Otto Jappen, 24-year-old grocery clerk, committed suicide here today at his lodging, 2111 Broderick street.

Jappen blew the top of his head off with a shotgun. He left no note, but his employer, Joseph Witt, grocer of 1926 Broderick street, told the police and attaches of the coroner's office that Jappen, in registering for the draft on Tuesday, did not claim exemption.

Witt says that Jappen worried all day Wednesday. In the afternoon he went to the registrar's office, where he asked permission to alter his original registration card. Jappen told Witt he was sorry he had not claimed exemption when he first registered because of his mother and cousin living in Germany.

The clerk at the registrar's office refused Jappen permission to reregister and claim exemption.

## Haig Drives Forward on Nine Mile Front in Belgian Smash

Towns Are Captured; Million Pounds of High Explosives Mine Teuton Trenches

BY ASSOCIATED PRESS  
LEASD WIRE TO TRIBUNE  
General Haig has launched his expected blow at the German lines in Belgium, striking early this morning along a nine-mile front on the Messines-Wytschaete ridge, between Ypres and Lille.

Success marks the opening of the offensive, the British winning all their initial objectives and pushing on. Their further progress is reported to be satisfactory along the whole front.

While a considerable stretch separates the field of this new offensive from that of Arras, the operation may be considered as the conjunction of the continuing battle on the Arras front. A sweeping salient in front of the city of Lille has been created by the Arras attack, and in a broad sense this salient is now under threat from both the north and the south.

Belying the recent German boast that the British offensive from Arras had come to a halt, General Haig earlier this week proved that he had not lost his initiative, thereby making a successful drive to the south of Lens, carrying a mile of the German front north of the Scarpe.

The reversioners from this blow had hardly died away before today's attack was launched on the other side of the Lille salient.

A sharp, well-defined curve in the German line, about three miles deep and the same distance across, is the immediate object of this new attack. The British are aiming at the junction of the line in Belgium along a front of some thirty miles, its defenses had been subjected to a tremendous pounding by the British artillery for days.

The French front is comparatively quiet. The only development of note last night was a German attack north-west of St. Quentin. This was quickly checked by the French fire.

### HUGE MINE USED.

WITH THE BRITISH ARMY IN FRANCE, June 7 (By a correspondent of the Associated Press).—The British rush this morning on the Messines-Wytschaete ridge of the Belgian front took them well over the ridge, where they are now entrenching.

From a staff correspondent of the Associated Press, it was reported that the village of Messines was taken early in the morning. It was also reported that Lenier and Zerebe had fallen and that Wytschaete had been surrounded by the British storming troops.

The British also captured important railway positions and the Ypres-Ostend railway, southeast of Ypres to Ploegsteert Wood, north of Armentieres.

More than one million pounds of high explosives was blown up under the German front line. This is the most gigantic mining operation in the history of war, spread panic among the Germans.

Tanks were in the thick of the fighting. More than 1000 Germans were taken prisoners early in the engagement.

The fighting continues under a mid-summer sun. The Germans have not yet rallied for the expected counter-attack.

The British in their attack today used probably 20 per cent more guns, especially those of heavy caliber, than they employed in the battle of Arras.

## CALIFORNIA TO EXCEED QUOTA FOR ARMY DRAFT

Final Figures Will Show at Least 366,000 Registered in State; 2000 Above Estimate

OAKLAND'S COMPLETE REPORT IS 16,831

While Returns Are Slow in Reaching Capital, 10,000,000 Men Believed Enrolled

WASHINGTON, June 7.—L. W. Neman, editor of the Milwaukee Journal, and Senator Huston laid before the President this afternoon evidence of German intrigue in Wisconsin. Sympathizers with pro-German tendencies are conducting a subtle campaign to kill the war spirit, the men reported.

### RETURNING FROM COUNTRIES.

BY ASSOCIATED PRESS  
LEASD WIRE TO TRIBUNE  
SAN FRANCISCO, June 7.—Reports received here today on registration returns as yet incomplete indicate that California will exceed her quota of eligibles for the selective draft by more than 2000, it being estimated that the final figures will run at least 366,000.

Twenty-nine California counties have reported a total complete registration of 16,831. Other cities complete are: Stockton, 5022; Fresno, 3862; San Jose, 2885; Pasadena, 2234; Sacramento, 5847.

San Francisco has 51,188 registrations checked and probably will run about 53,000 when the count is complete.

**CERTIFICATES FORGED?**  
BY ASSOCIATED PRESS  
LEASD WIRE TO TRIBUNE  
WASHINGTON, June 7.—Agents of the Department of Justice today are investigating a report from West Virginia that a group of men had secured possession of registration certificates and were distributing them to slackers.

Officials assumed the fact that registration certificates had been forged.

From widely scattered sections complaints against shirkers began to pour into the provost marshal-general's office today. The complaint was immediately referred to the Department of Justice for action.

A special advisory board of lawyers, jurists and military authorities was ready today to submit recommendations for general exemption plans to President Wilson.

Already it is definitely determined that there will be no wholesale class exemptions, such as farmers, shipbuilders, munition workers and others.

### RETURNERS ARE SLOW.

Official returns from various states on registration are coming slowly to the office of Provost Marshal-General Crowder. Thus far the complete returns have been received only from Delaware, New Jersey, the District of Columbia and Wisconsin. It is probable that several days will elapse before all the returns are in and General Crowder is enabled to ascertain the exact number of registrations June 5.

A number of governors have wired General Crowder their estimates of the number of registrations in their states, but these are largely guesswork. In a number of states high water and severe storms on registration day prevented a quick completion of the returns.

Complete figures on registration in Wisconsin were forwarded to the provost marshal-general's office this afternoon. They show that 245,758 men registered for the draft, of whom 28,709 were alien enemies. Wisconsin's quota under the census bureau's estimate was 239,591.

**LETTERS HELD UP.**  
ST. LOUIS, June 7.—Federal authorities here today are investigating an alleged nation-wide campaign against the draft. Letters of the Socialist party in St. Louis, today admitted posting the letters here and said it was part of a national campaign of the national Socialist party to obtain a referendum on drafting. The mail matter did not advise me.

(Continued on Page 2, Col. 5)

WASHINGTON, D. C., June 7.—The House today passed the senate bill to authorize issue of rifles and other equipment for organization of home guards.

# REGISTRATION IN OAKLAND IS INCREASED

Pending further registration of eligibles under the draft act no arrests will be made by the police department of those who failed to register last Tuesday.

City Clerk Cummings stated today that usually registrations taken in other places are constantly being received through the mail. The total registration in Oakland so far is in the neighborhood of 17,000; and it is believed that this number will be considerably augmented when the final returns are in.

## APPRECIATES PATRIOTISM

In a signed statement Mayor John L. Davis expresses his appreciation of the patriotism that prompted those who acted as registrars without pay. The statement says:

"In conducting regular elections with the election boards receiving pay for their services the city always has considerable difficulty upon the morning of election when it is always the case that thirty or forty members of election boards fail to appear. Sometimes at noon on election day the boards have not been filled. However, on this registration day every registrar and assistant registrar was at his place on time and in not one instance were we called upon to fill a vacancy made by some delinquent registrar. In many cases the entire board were present at the tents long before the opening hour of 7 o'clock and in some precincts many were registered before the hour appointed."

"The task of the registrars was by no means an easy one. Some of them were taxed to the utmost for a period of fifteen to sixteen hours. Their splendid showing proved that there is a splendid spirit of sacrifice and patriotism prevailing in our city and on behalf of the city of Oakland I wish to extend thanks to all those who served as registrars or contributed in any way to the glorious showing that Oakland made."

**NO CONSIDER EXEMPTIONS.**  
SAN FRANCISCO, June 7.—Preparations for consideration of the exemption claims of more than 20,000 selective service registrars were completed today. The thirteen registration boards, headed by Mayor Ralph S. Hays, met today and completed organization for the coming work, which will begin as soon as complete copies of draft regulations have been received from Washington.

The legal rights of exemption claimants members of the boards will confer with half a dozen of the city's legal lights tomorrow. It is understood that each district board, composed of three members, will have complete control over exemptions in its district and will consider the validity of all such claims.

## GRAY AND BLUE VETERANS MARCH AT U. S. CAPITAL

WASHINGTON, June 7.—Under the Stars and Stripes they marched today, heroes who marched and fought with the gray, brave men who answered the southern call, under Old Glory they rallied today—Americans all.

Overcast skies held no terrors for the veterans of the "lost cause." Down Pennsylvania avenue, where in the sixties the victorious Union troops in blue paraded their victory, they marched in the "parade" with the great gray army marched today, commemorating the valor of men who fought well and lost well. Five thousand United Confederate veterans and five thousand others marched in the "parade" with the Stars and Stripes fluttering above the Stars and Bars.

The veterans of the southland were escorted by a thin line of Union veterans, members of the District of Columbia posts of the Grand Army of the Republic.

Robert E. Lee, nephew of the Confederate leader, gave the order, "Forward, march," at 10 a. m., and as the bugler blared forth the command like a unit gray-clad shoulders went back, gray-clad chests swelled and gray-haired heads became erect as the gray army moved forward. Morgan's men, picked men, Forest's cavalry and hosts of other men who have made history, marched today.

**EMPLOYEES BUY.**  
The Taft & Penney Mutual Aid Society is to buy Liberty Bonds amounting to \$500. Members of the society have individually subscribed

## Commercial Secretaries to Meet Will Discuss Aids to Uncle Sam

More war aid for Uncle Sam will be mapped out tomorrow at a meeting of the commercial secretaries of Central California in the Commercial Club rooms of the Oakland Chamber of Commerce.

The coast counties' branch of the California Association of Commercial Secretaries will be organized at this meeting primarily to assist the government to mobilize the resources and secondarily to draw the central counties closer together in a mutual aid organization.

Organization will be effected under the direction of a committee consisting of Captain Joseph E. Caine, secretary of the Oakland Chamber of Commerce; Joseph T. Brooks, secretary of the San Jose Chamber of Commerce; and either H. M. Macle, secretary of the Santa Rosa Chamber of Commerce. This committee was appointed by the advisory council of the central organization at a meeting held in Sacramento about six weeks ago to map out plans to help the United States in the war crisis.

**COUNTIES REPRESENTED.**  
The counties which are to be included in the new organization are: Alameda, Contra Costa, Humboldt, Lake, Marin, Mendocino, Monterey, Napa, San Benito, San Francisco, San Mateo, San Luis Obispo, Santa Clara, Santa Cruz, Solano, Sonoma.

**MANY TO ATTEND.**  
Those who have already sent ac-

ceptances of invitation to the conference are:

From Alameda County—Wells Drury, secretary Berkeley Chamber of Commerce; J. Elmer Welch, secretary Hayward Chamber of Commerce; Edward J. Silven, secretary Alameda Chamber of Commerce.

From Contra Costa County—R. R. Veale of Martinez, County Chamber of Commerce; J. A. Long, Richmond Chamber of Commerce.

From Marin County—James A. Edmiston, San Rafael, Central Marin Chamber of Commerce.

From San Benito County—H. H. Whitmore, Hollister Chamber of Commerce.

From San Francisco—Charles R. Thorburn, Home Industry League; L. M. King, San Francisco Chamber of Commerce; W. D. Egilbert, California Development Board; C. M. Oddie, San Francisco Commercial Club; C. D. Cline, Central California Tourist Association; Warren Manley, district secretary Chamber of Commerce of the United States.

From Santa Clara County—Joseph T. Brooks, San Jose Chamber of Commerce.

From Solano County—Charles S. Wyer, Fairfield, Solano Chamber of Commerce.

From Sonoma County—Walter H. Nagle, Santa Rosa Chamber of Commerce.

The conference will be guests of the Oakland Chamber of Commerce at a luncheon preceding their meeting.

## FRENCH PLEASED AT REGISTRATION

By W. S. FORREST, (United Press Staff Correspondent.)  
PARIS, June 7.—The French government is deeply impressed with the results of the American enrollment for war," declared M. Jules Cambon, former foreign minister, today.

"Officials realize that a certain time must elapse before they can be thorough in co-operation with Europe, but meanwhile they are struck with the preparations to date. Knowledge of the American preparations may be the deciding factor in victory for the allies."

"Marshal Joffre will act as the bond of union between the French and the American armies."

Cambon declared the Russian situation "was improving."

"History," he said, "demonstrates that the Russian temperament is Oriental and hence is easily influenced by Occidental thought. This is the only bad feature of the Stockholm peace conference, which was clearly understood, with neither France, England nor Italy participating."

In the official orders of the day today was published the full report of the senate's striking proceedings late yesterday. The government statement asserts France is convinced that a victory by the allied arms "alone can insure a lasting peace."

"France," the order continues, "is firm in her alliances and faithful to the ideal of independence and liberty of all peoples. She desires to continue the war until the restoration of Alsace-Lorraine is accomplished; until punishment is meted to the criminal who has committed the crimes against her is obtained; until there is reparation for damage inflicted and guarantees obtained against a return of the offensive by German militarism."

Whether or not the city of Oakland owns tide land property at the foot of Franklin street where the Rhodes-Jameson Co. was restrained from constructing a new wharf extension last December, it controls the right to operate and collect tolls and wharfage, according to an opinion rendered to the city council by City Attorney Mori today.

The company is in dispute with the city over the payment of tolls and wharfage under the new waterfront ordinance and Commissioner Harry S. Anderson stated that an effort will be made to effect a compromise in the matter whereby the city would permit the wharf construction if the company will make certain concessions. The matter was referred to Commissioner Anderson to investigate further and make some recommendation to the council. He stated that it "is a matter of policy for the council to decide upon."

City Attorney Mori stated that the council has the "absolute right to refuse the use of the land for private purposes" unless it is agreed that the company pay the prohibited tolls and wharfage over \$3000. The society has also donated \$1000 to the Oakland Chapter of Red Cross and made provision for members who enlist.

## STATE TO EXCEED QUOTA FOR DRAFT

(Continued From Page 1)

against registering, however, Brandt said.

With several precincts unheard from registrations in St. Louis Tuesday will reach about 75,000, it is estimated today. Sixty per cent of the whites and 81 per cent of the negroes offered exemption pleas.

**TWO ARRESTED IN S. F.**  
SAN FRANCISCO, June 7.—Nikola Marth and Bozo Dragash, Austrians, are the first two alleged slackers to be arrested in this city. They were taken into custody early this morning from a hotel at 553 Sacramento street by Detectives O'Leary and Egan and booked in the United States marshal's office when it was learned they had not registered on Tuesday in compliance with the draft act.

By Carl D. Groat, (United Press Staff Correspondent.)  
WASHINGTON, June 7.—Returns filtering in to Provost Marshal General Crowder's office today indicated that exemption claims may exceed 50 per cent of the war registration.

This, however, did not far surpass official expectations inasmuch as a large share of the claims are based on the dependency of relatives.

"Many men claimed themselves as 'probably exempt' on account of occupation of disability."

All exemption claims will be carefully examined to determine whether or not they are bona fide, but the indications are that only a small percentage was hidden "behind women's skirts" to be freed from military service, or has claimed exemption on the ground of "conscientious objection" to war.

In cases of conscientious objection the applicant, if otherwise qualified, will be exempted from some form of military service. If he proves fully his conscientious objection he will probably be used in work behind the lines. If he fails to prove his statement then he will be subject to actual bearing of arms.

Official returns are coming in slowly, though they began to speed up today and probably will be on in full blast tomorrow.

The fact that 10,000,000 men have registered as available for military service will have a tremendous psychological effect in Germany, it is believed, showing her the great resources in man power still aligned against her.

**ASKS DENATURALIZATION.**  
SAN FRANCISCO, June 7.—Denaturalization is the punishment which United States District Attorney John W. Preston would inflict upon A. Bilinski for his alleged activities as an anarchist and distributor of anti-draft and birth control literature. Bilinski was admitted to citizenship on May 17, and Preston will ask for the cancellation of his papers on the ground that he misrepresented the truth when he told the court that he was opposed to anarchy.

Bilinski was arrested yesterday on a charge of using the mails to defraud and his bail was fixed at \$500. Agents of the Department of Justice claim that he solicited funds for propaganda work and then appropriated the money to his own use.

John A. Feller, an associate of Bilinski, was arrested in Pasadena last night. In his possession and in his amateur print shop was found a quantity of birth control literature. Feller is a German-Swiss who has taken out his naturalization papers. He claims that he merely remailed addressed envelopes which were sent to him in packages, and that he did not know what the envelopes contained.

**TREASON RIOT SEQUEL.**  
ROCKFORD, Ill., June 7.—John Cully, organizer for the I. W. W., was arrested today on a charge of treason as a sequel to the riot last night when 133 Socialists and followers of Cully stormed the county jail demanding to be locked up for failure to register.

Sheriff Guy W. Ginders accommodated his visitors, and today they were just about to get out as they had been to get in.

Assistant District Attorney Neal, upon arrival from Chicago this afternoon, said he would offer the 133 prisoners one more chance to register before filing charges against them.

**DIVORCE GRANTED.**  
Although Manuel S. Cardoza alleged that Ignacia Cardoza had caused him to give up his dairy business and return to the Azores Islands, she possessed a temper that greatly disturbed him and that she had repeatedly threatened to commit suicide by leaping into a well, Judge W. H. Donahue this morning granted an interlocutory decree of divorce to the wife on the ground of wilful desertion.

Cardoza maintained that he had left home because he could no longer stand the strain, but the court took a different view. The court ordered that the boy was awarded to the father, while the mother was awarded two minor daughters.

Manuel Souza was granted an interlocutory decree by Judge W. M. Conley from Muriel Souza. The plaintiff is Portuguese and the defendant is Irish; their national temperaments did not agree.

## AMERICA DENIES FAVORING REVOLT

WASHINGTON, June 7.—Secretary Lansing today most emphatically denied reports published in the Chinese press that the United States was supporting the revolutionary movement there and had even furnished funds for it. He said he had no idea upon what the charges were based, but that he deplored them for creating a false impression of this country's good will towards China.

It is thought possible, however, that the Chinese press may have become confused over the attitude of Minister Reisch in Peking. Reports have come from there that he was instrumental in inducing the Chinese government to follow this country in severing relations with Germany and that resentment had been created against him in certain pro-German and anti-government quarters.

**IN TWO FACTIONS.**  
TOKYO, June 7.—The anniversary of the death of Yuan Shi Kai, first president of the republic of China, today found China divided into two distinct governments with the interne struggle between the northern and southern parts of the country unabated.

President Li Yuan Hung firmly maintains his opposition to the division of the country and continues to urge Wang Shi Chen, chief of staff, to accept the premiership and to attempt to bring the warring factions together.

Peking today received a protest against the Tucsans from the leaders of the provinces of Yunnan and Szechuan, both of which are looking to the United States for aid. They suggest that Li Yuan Hung form a new cabinet with Dr. Wu Ting Fang, former Chinese minister to the United States, as head, hoping by this to gain American support.

General Chen Ching has spurned the advances of the military and today announced his unswerving support of the President. He is making a strong effort to mediate and has proposed that Li Yuan Hung be petitioned to dissolve Parliament and take steps to punish the Tucsans. The latter evidently fear the growing strength of the South China factions. Wu Ting Fang issued a statement pleading for a peaceful solution and declaring that foreign interference in the affairs of China is likewise.

**OPPOSE MONARCHY.**  
General Ni Shi Chun, leader of the rebels in Anhwei province, in an interview today declared the Tu-Chuns do not want a monarchy. President Li Yuan Hung, he said, must dissolve parliament or else retire in favor of Hsu Shi Chang, head of the provisional revolutionary government.

Ni Shi Chun does not expect any fighting, declaring even President Li's personal bodyguard is in favor of the Tu-Chuns. The whole trouble, he said, will be settled in a fortnight and the present is a new parliament will declare war on Germany.

The general declared the cause of the revolt of himself and his associates was the refusal of President Li and his advisors to follow what he believed to be a proper war policy. General Ni Shi Chun was the first military leader to declare his independence.

Three transports loaded with Japanese troops have left Japan for Manchuria, where they will replace Japanese troops who were sent to service there has expired.

**NORTHCLIFFE TO COME TO AMERICA**  
LONDON, June 7.—Lord Northcliffe is coming to the United States for business. He is not coming for a speech making or banqueting tour, but means business and will start his work at once from an office in downtown New York.

This is his own idea of his post as successor to Foreign Minister Balfour at the head of the British war missions. He explained his plans in an exclusive interview granted the United Press, just prior to his departure, and which it is permitted to publish today, now that England's famous publicist and publisher is about to arrive in America.

"I am coming on a speech-making or banqueting tour," Lord Northcliffe declared. "I propose taking offices downtown in New York, where I can confer on the many business interests involved in the British and allied missions."

"I feel much diffidence in succeeding so important and charming a personality as Balfour, but I shall do my best to harmonize the work of the mission and I may say to facilitate the enlistment of many British subjects now in the United States as possible."

"On my arrival I shall, of course, first report at the British embassy in Washington."

WASHINGTON MARKET

## PROTECT U. S. FOOD SUPPLY, DEMAND

By Robert J. Bender, United Press Staff Correspondent.

WASHINGTON, June 7.—Congress must protect the American food supply from her allies.

With this warning from both President Wilson and Herbert C. Hoover, new food administrator, leaders of both parties turned to the food problem again today as the most pressing difficulty ahead of the nation.

England's clamor for more food is growing louder, while the prices in this country climb higher and the laboring man demands for governmental action to reduce the price of foodstuffs becomes more insistent.

President Wilson has told Republicans and Democrats that ample powers must be given the food control department and the allies will be coming to this country, bidding for American food and hoisting prices out of sight.

Hoover says adequate machinery must be set up at once to see that American markets are not raised and prices forced to a point of embarrassment to the American people.

**FULL POWER NEEDED.**  
"We must," he said, "protect ourselves from our allies in order to protect our own people and at the same time do all justice by the allies and all the service for them that we can."

Both the President and Hoover insist the power of requisition must be behind the food department. Pressing demands from the allies for everything the United States can furnish, coupled with urgent appeals from the people of this country for action on the food question, is spurring action on the bill. Already for the sake of speed, the House agricultural committee has struck out of its bill certain features that would stimulate debate on the measure, authority to fix minimum prices and to standardize certain foodstuffs.

Hoover himself would not attempt to do any price-fixing, except as a last resort to preserve the country's food supply. He believes, however, minimum prices might serve to stimulate production and authority to fix minimum prices will be left in the measure when it is reported out of committee to the floor of the House early next week.

Under pressure from the administration the committee is sitting almost constantly in an effort to finish work on the bill. It will be reported out almost immediately.

**FOOD CONTROL ASKED.**  
Already unrest at the food situation is beginning to be felt in Congress. Senators and representatives are receiving thousands of telegrams from working men asking that their salaries be increasing less than one-third as rapidly as the prices in necessities. The government, it was declared, is making greater and greater demands upon them.

"Let the government see that food is put under control," is the tenor of all protests.

## DEATH SENTENCE IS NOT GROUND FOR EXEMPTION

SACRAMENTO, June 7.—John Schone sentenced to be hanged for murder at Folsom prison on August 3, registered with 587 other convicts at the prison, but he didn't claim exemption.

When Warden J. J. Smith registered Schone he asked him if he claimed exemption and the condemned man replied that he did not. "I don't consider a death sentence to be ground for exemption," said Schone.

Warden Smith said that out of the 587 convicts who registered not one claimed exemption. "Only one objected to registering," said Warden Smith, and he was a German named Schmidt. He said that he did not want to fight against his native country and would not do so unless drafted.

## GERARD ACCUSED BY BERLIN EDITOR

BERLIN, June 7.—George Bernhard makes the following assertions in the Vossische Zeitung, in reply to the denial of James W. Gerard, former American ambassador to Germany, forwarded to the legation at The Hague, of a statement he is alleged to have made to the Berlin editor with respect to President Wilson's attitude on the restoration of Belgium and probable German annexations in the east.

"My conversations with Mr. Gerard were invariably very comprehensive and frequently extended over several hours. I discussed in detail with him, as well as with Mr. Penfield, the American ambassador at Vienna, during my visit to that city, the possibilities of a Wilson peace mediation. Mr. Gerard naturally endeavored to convince me that intervention on the part of President Wilson was bound to be favorable to us."

"Russia was to be sacrificed by England, if only for the purpose of keeping alive the animosity between Germany and Russia, the benefits of which were bound to prove a valuable political legacy in the future."

## RUSS SEND PEACE PLEA TO AMERICA

PETROGRAD, June 7.—The Russian workmen and soldiers' council wants America to bring about an early peace—whether that and be achieved through fighting forces sent to the front, through financial, industrial or other aid.

President Tschelidze of the council so declared today in an interview with the United Press, the first time that of Russia's "invisible government" has granted.

**REVOLT IS ENDED.**  
PETROGRAD, via London, June 7, 10:25 a. m.—The local committee of soldiers' and workmen's delegates has recognized the authority of the provisional government.

The local committee of the workmen and soldiers' delegates at Kronstadt decided June 1 to assume control of the great fortress and to refuse recognition of the provisional government. The government officials were removed. The secessionists put forward a program of splitting Russia up into a great number of self-governing communities and sent plenipotentiaries to try to persuade neighboring towns to join them.

The Socialist ministers in the provisional cabinet, M. Tsereteli and M. Skobeloff, went to Kronstadt from Petrograd and endeavored to persuade the seceders to abandon their plan. The present surrender is apparently a result of their arguments.

**Allen's Foot-Ease for the Troops**  
Many war hospitals have ordered Allen's Foot-Ease, the antiseptic powder, for use among the troops. Shaken into the shoes and sprinkled in the foot-bath, it keeps the feet cool and comfortable, takes the friction from the shoe, and prevents the feet getting tired or foot-sore. Young men in the community are using Allen's Foot-Ease in their daily life. Military Preparedness. Drug and Dept. Stores everywhere sell it. Do not accept any substitutes. Try it today. ## WORKERS RALLY TO LIBERTY LOAN BOND

### Cotton Mills Employees Subscribe Out of Sav- ings; Business Men Also Buy

The names of 750 employees of the California Cotton Mills, Oakland, have been inscribed on the Liberty Loan roll of honor.

These 750 employees out of a total of 1100 of the big cotton manufacturing plant each invested in one or more Liberty bonds yesterday. The total investment of the California Cotton Mills employees in Liberty Bonds is approximately \$25,000. And to this is added the \$15,000 invested by the company itself.

The splendid patriotism shown by the cotton mill employees followed the holding of a mass meeting of employees at noon yesterday. The meeting was arranged by J. R. Millar, manager of the plant.

Millar, in behalf of the company, extended to the employees the accommodation of a partial payment plan of \$1.00 down and a \$1.00 a week without interest on deferred payments.

This is one of the most striking exhibitions of patriotic service that has yet been exhibited in the campaign for the sale of Liberty bonds in Alameda and Contra Costa counties.

The employees of the California Cotton Mills have answered the call of Uncle Sam. They have answered the appeal of their country. They have "done their bit." Have you?

If you are an employee go to your employer today and tell him you want to invest in a \$100 Liberty Loan bond.

Tell him you wish to make a payment of \$10 down and \$10 a month, which he can retain out of your salary. He can arrange all details at his bank.

At the end of nine months you will own the safest investment in the world, paying you at least 3 1/2 per cent.

You will have saved this \$100.

If you have a savings account, go to the bank and have them transfer at least a part of your account into Liberty bonds.

Enroll on the side of liberty, freedom, humanity, democracy, now, today!

Remember if you can't enlist—invest. The world is watching America, and you! Buy a Liberty Bond.

### START CAMPAIGN.

Sixty members of the Oakland Chamber of Commerce started out today to deliver sixty speeches in the interest of buying Liberty bonds. They spoke at the various factories of the Oakland industrial district and at stores, shops, ship yards and other places where workingmen could be reached at luncheon.

The slogan of the speakers was "Ten million dollars in ten days." The beginning of the whirlwind speaking campaign was decided on at a meeting in the Commercial Club rooms at luncheon yesterday at which every important walk of life in Oakland was represented.

Those who answered to the roll call were immediately drafted into the speaking forces and not one claimed exemption. They will be out again tonight making bond-selling speeches before improvement clubs, women's organizations and similar bodies.

The rallying to the standard of the Liberty bonds followed appeals by Joseph H. King, president of the Chamber of Commerce; H. C. Capwell, its vice-president; Joseph J. Rosborough, in charge of the speakers' bureau, who presided at the luncheon, and H. H. Fair, a bond expert, representing the Federal Reserve Bank of San Francisco. The list of voluntary campaign speakers follows:

William H. Barry, S. E. Biddle, Joseph N. Burroughs, T. B. Bridges, H. C. Capwell, A. E. Carter, I. H. Clay, P. E. Crabtree, Nat. J. Crocker, F. F. De Lisle, C. W. Dickson, Roy Dunann, D. C. Dutton, Edward W. Engs, W. W. Garthwaite, Lewis S. Gear, W. E. Gibson, K. L. Hamman, Max Horwinski, John Hottel, John L. Howard, Jr., Dr. C. F. Jarvis, Herman T. Johnson, Joseph H. King, Harry A. Laf-fer, V. O. Lawrence, Russell Lowry, R. H. Marchant, George Marwedel, John Mauserhan, Charles W. McCall, Cochran McCarron, H. McClaughry, Frank C. McGurkin, L. F. Moore, Harry A. Mosher, Roy Munsell, David D. Ollant, Harold Oliver, George Otis, James H. Pedgriff, Chief W. J. Petersen, Willard Humphrey, Fred E. Reed, Robert Robertson, Harry C. Schroeder, E. S. Sharp, George Sheldon, Charles E. Snook, Carl Sward, James H. Traverse, A. Vander Nallen.

### COMMITTEE ENLISTED.

Hundreds of Oakland, Berkeley, Alameda, and out-of-town business men, bankers, merchants, manufacturers, doctors, lawyers, municipal officials, rich men, poor men, have enlisted in the campaign for the Liberty Loan bonds in Alameda and Contra Costa counties.

This organization is known as the Liberty Loan Committee for Alameda and Contra Costa counties. Headquarters have been established in 808-809 Syndicate building.

Disclosing the widespread activity of this committee is the following list of executive officers and members of some of the principal committees but not by any means a complete list of the men and women who have enlisted in the Liberty Loan campaign.

Executive committee—Edson F. Adams, chairman; J. R. Millar, Geo. C. Farde, S. J. Donohue, W. A. Hale, Chas. J. Crary, J. E. Hall, Samuel C. Irving, J. Y. Eccleston, Fred Kahan, E. J. Davis, H. C. Capwell, John G. Mattos, Jr., L. M. MacDonald, W. F. Morrish.

Publicity committee—Russell Lowry, chairman; C. P. Howard, F. A. Leahy, Jr., J. C. Aoy, Wm. Cavallaro, chairman; H. C. Capwell, J. R. Knowland, D. E. Perkins, J. J. Rosborough.

Organization committee—J. F. Carlston, chairman; E. A. Majors, J. B. Keating, F. J. Crosby, O. H. Fischel, H. E. Reed, Ben F. Woolner, R. M. Fitzgerald, J. J. Rosborough, Louis Auer, W. R. Alberger, E. Veltch, Robert Leet, Geo. Wilhelm, Mrs. A. E. Carter, H. A.

### FORD SUBSCRIBES FIVE MILLIONS TO LIBERTY LOAN

DETROIT, Mich., June 7.—Henry Ford, ex-pacifist, today subscribed \$5,000,000 to the government's Liberty loan. The announcement today at a luncheon of the Detroit Liberty Loan Committee, was followed by a demand upon Ford for a speech.

"I have made a solemn vow," Ford responded, "not to make a speech until Thomas Edison does."

And he sat down. Earlier in the day Ford had outlined his ideas on the problems of the war.

"Our country is at war," Ford said. "All else must be forgotten. To end the terrible struggle we must win. The war doesn't mean that the wheels of industry will stop or even slow up. The factories will win for us just as surely as will the men on the firing line."

### BIG LIQUOR RUSH

SEATTLE, June 7.—Forty thousand persons during forty-eight hours have called at the express offices here for shipments of liquor. It was estimated today. The "bone-dry" law, due to go into effect last night at midnight, was the cause of the liquor rush.

This estimate furnished by the express companies is conservative. In all instances lines before each express office reached two and three blocks long during all hours of the day.

### PLAN CARD PARTY.

VALLEJO, June 7.—The Vallejo Red

Cross chapter of the American Red Cross Society will hold a card party at Elks Hall in Sacramento street on Wednesday

evening, the 20th inst. Mrs. R. L. Gross and Miss Lillia R. Marshall will make arrangements for the affair.

568-572  
Fourteenth  
Street.

THE BIG BUSINESS-MAN'S GUM

While at the Aviation School at Miami, I found how valuable Adams Pepsin Gum is. I first chewed a piece because I liked the cooling peppermint flavor, but soon I discovered in this gum a wonderful nerve steadier. Now I chew it all the time I am in the air as well as between flights.

## SUPERVISORS ACT IN MAP DISPUTE

That the discussion and assertions of wrong-doing in connection with the railroad advertising appearing on the automobile maps recently purchased by the county was unwarranted and that the whole circumstance is only a tempest in a teapot, is the decision arrived at today by the county supervisors. The map question was discussed thoroughly, and, according to the decision arrived at by the supervisors, the facts are these:

The Kelley-Davis Company, through an agent, received an order for 100,000 maps from the P. P. I. E. Company during the exposition year. The maps, under a special arrangement, were to carry an advertisement of the Southern Pacific line for a consideration of \$3 per 1000 copies. The maps were never delivered to the exposition company because the O. K. of the proper official could not be secured. The advertising company, to reimburse itself, offered the maps to the county at a reduced figure, \$4000, and the county accepted them at that figure.

The maps have not been circulated at the advice of the district attorney, because Worthington Gates, claiming the copyright values on the maps, threatened the county with a suit for infringement. The Kelley-

## PERALTA PARK WILL BE CAMP FOR RECRUITS

Peralta park, the site of the municipal auditorium, will within a short time become the scene of a big marine corps recruiting camp, with Lake Merritt to offer the facilities for boat drills.

Upon request of Commander Willis of the United States Marine corps, the city council today agreed to place the equipment of the auditorium at the disposal of the regiment which will constitute 1000 men recruited from all parts of the State. A regulation camp would be established surrounding the auditorium. Mayor Davis in asking the council to take action stated that the presence of a body of troops in the heart of the city would be an incentive for enlistment. While the council can grant the privileges of the auditorium, the use of Peralta park is under the jurisdiction of the park board and the matter was referred to that body for final action.

## MOTHER IS SUED

Suit to establish the incompetency of Mrs. Mary A. Perry, 70 years of age, of Berkeley, is being tried before Judge William S. Wells in the superior court, the plaintiffs being her two children, Joseph F. Furtado and Mrs. Ina Shipman.

Mrs. Perry was formerly Mrs. Mary A. Furtado. Her husband died some three years ago, leaving her his entire property and excluding his children from his will in the belief that she would deal justly with them. A month ago she married a second time.

The plaintiffs allege that a week after her marriage she decided to Perry \$10,000 worth of property and made him the beneficiary in her life insurance policy, which had up to that time named her children. They wish to have her declared incompetent and to have Joseph F. Furtado appointed as her guardian.

Davis Company and the district attorney allege that there is no merit to Gates' claim.

The matter is further being held up to give the Kelley-Davis Company an opportunity to see the other railroad maps and make some arrangement with them to print an advertisement of their lines on the maps.

**LAWYERS TO MEET.**  
Hon. W. R. Williams, superintendent of the California state banking department, will address the Oakland Lawyers' Club this evening on the work of the department at their banquet at the Hofbrau-Cafe. The club will also hold its annual election of officers and a reception for new members.

8 West Fortieth Street, New York.

## FINAL TRIBUTE PAID RICKARD

BERKELEY, June 7.—Under impressive auspices and attended by a host of friends of the deceased, the funeral of Richard Penrose Rickard, for eleven years with the S. J. Sill Grocery Company in this city, whose death occurred suddenly Sunday night, was held yesterday afternoon at the Masonic Temple. Interment followed by cremation at the California Crematorium.

The funeral was conducted by Mission lodge of Masons, No. 169, of San Francisco, of which Rickard was a member, and a large delegation from that and other San Francisco lodges and the local branches of the order as well attended. Dr. I. Wallace of Mission lodge was master of the ceremonies. A quartet from the lodge rendered several songs.

**FLORAL TRIBUTES.**  
About the bier and the cremation floral offerings from organizations and friends were heaped high. Among the most beautiful of these was a large floral arrangement from the S. J. Sill company. Other pieces were from the Alameda County Retail Grocers' Association, several local grocery houses of Oakland and San Francisco, Berkeley establishments and individuals. The pallbearers included George Ruble, H. D. Cushing, S. J. Sill, William Dunstan, E. Muller and H. Sorenson. Brief ceremonies accompanied the final disposal of the remains at the crematorium. Rickard was born in England in 1871. He was a Cornishman and had many friends from that section of his native country about Berkeley and neighboring cities. He came to this country when a young boy, and for the past twelve years had resided in Berkeley. He was 45 years of age when he died. He had entered the employ of the S. J. Sill company, of which at the time of his death he was secretary and manager.

**DIED SUDDENLY.**  
Sunday evening Mr. and Mrs. Rickard and their daughter enjoyed in Oakland a farewell dinner to the last Miss Rickard, who left in the evening for San Jose to enter school. After her departure Mr. and Mrs. Rickard returned to their home at 2024 Parker street, where the former was stricken a few moments later and died almost immediately. His death was a sudden surprise, as he was in the best of health. He was a member of the Royal Arch Masons and of Odd Fellows of Odd Degrees, also of San Francisco.

## ROMPAGE-JOHNSON—Edward C. Rompage, 31, Los Angeles, and Susie I. Johnson, 31, San Francisco.

**MARIA SILVEIRA—Antonio Maria, 28, and Mary C. Silveira, 24, both of West Coast.**

## WOMEN'S LETTERS CAUSED JAIL ROW

JOLIET, Ill., June 7.—Rioting in the Illinois state penitentiary, attributed by some officials to an "overdose of the honor system," will result in a radical reformation or perhaps the abolition of honor privileges within the prison.

A. L. Bowen, acting warden, said today that among the things which he forbids are correspondence with women and visits from women not relatives of the prisoners.

To prove that correspondence with women on the outside had done much to demoralize prison discipline, Warden Bowen made public excerpts from letters received at the prison and confiscated by the authorities. They were from women who had been put in communication with prisoners through a league organized for uplift work. The women varied in ages from 70 to 15.

"I fell asleep and dreamed of my hero—you, wrote one woman. 'The dream was really a continuation of my thoughts; love's sweet dream.'"

"Tell me my letters make you happy or I shall squeeze you till you squeal—oh, you baby," was the message to another convict.

Apparently some of the women had more than one correspondent, but whether in different prisons was not made clear.

Warden Bowen said the letters came from all parts of the United States and from all degrees of social rank. One woman's stationery was "elaborately crissed."

It was the order curtailing the correspondence and visiting privileges which precipitated the recent prison revolt in which one man was killed.

Warden Bowen said the letters came from all parts of the United States and from all degrees of social rank. One woman's stationery was "elaborately crissed."

It was the order curtailing the correspondence and visiting privileges which precipitated the recent prison revolt in which one man was killed.

## SUICIDE PACT PLEA SECURES WIFE DIVORCE

A story of suggested cremation in a burning cabin and other suicide pacts won Rose Allen an interlocutory decree of divorce this morning from Darwin Allen, a commercial photographer, in the court of Judge T. W. Harlan.

The plaintiff informed the court that her husband had failed to provide for her and that he had peculiar ideas which made their married life uncomfortable.

When Judge Harlan asked her the nature of the peculiar ideas she related that on one occasion in Ottawa her husband had suggested that they should go together into an unframed part of the country, find a cabin, destroy all marks of identification on their clothing and then burn themselves alive in the cabin. At another time, she said, he suggested that they should make a suicidal pact, she to kill herself first.

## DOCK & DECK

The latest of the 12,000-ton steamers under contract to be built for the Cunard line by the Union Iron Works is the War Steamer, which will be launched within a few days from the plant on this side of the bay.

The steamer Haulam from Seattle, B. I., is now at the Alameda plant of the company for inspection and outfitting. The 480-ton steamer, which is the latest of a long line of overhauling. She is recently in from Acapulco, C. A., via Salina Cruz, Acapulco, and other ports in the Gulf of Mexico. The British steamer Turret Crown, down from Nanaimo has left the harbor for the coast of B. I. The peculiar "switchback" style attracted considerable attention along the front.

**OLD WHALER AT HANLON'S YARDS.**  
The old wooden bark Narwhal, built for a whaler in 1833, is again in the dock in East Oakland close to the place which for a time threatened to be its last resting place. Instead of being abandoned on the beach, it is being overhauled and is in the hands of the Hanlon yard.

The Narwhal met with unfavorable weather on this trip and was sixty-one days out on what is usually a forty-five day trip. She is owned by L. A. Pedersen but brought a cargo for Williams, Diamond & Co. She is to leave for Europe and will be replaced by the E. K. Wood Co.

**Schooner Henry Wilson** of Libby, McNeil & Libby, has stopped in Puget Sound on the way to Bristol Bay from Oakland. She is to take a cargo of cannery supplies to replace the one lost when the St. Francis was wrecked. She left for Bristol Bay May 15 and will be back to Port Townsend arriving there a week ago. Barkentine James Tuft of this port and the Alaska Pacific Lumber Co. of Seattle are also in the sound. They are operating in the lumber trade.

## SUN, MOON, TIDE

United States Coast and Geodetic Survey.—Tide tables for the month of June, 1917, for the port of San Francisco, California, are published by the United States Coast and Geodetic Survey, Washington, D. C., and are available for sale at the following prices:

Full moon sets June 11, at 10:28 a. m.  
New moon sets June 19, at 4:32 p. m.  
First quarter June 26, at 1:12 p. m.  
Last quarter June 3, at 11:41 a. m.

## 4 Times the saving

The first-hand, cash, saving in buying one Diamond Tire is evident.

Add to that the longer and better service for the money.

Naturally, four Diamonds multiply that saving and service for you by four.

Enormous production—great manufacturing economies—studious bettering of product—low selling cost—these combine to your benefit.

You may need but one tire now. Get a Diamond Squeegee Tread. Keep on until you are driving on four Diamonds—and saving on each.

Every Diamond Tire must deliver full value in service. If ever a Diamond Tire fails, a cheerful, willing adjustment will be promptly made.

## Boiling Points Determine Quality of Gasoline

"Then I might just as well throw my gravity hydrometer away?"

"You said it, Mr. Motorist."

"Listen, the boiling points of gasoline absolutely control its starting qualities, accelerating qualities, power-giving qualities. Gravity has nothing to do with it."

"To get the most out of your motor, your gasoline must have the correct series of boiling points in a gradually rising, unbroken chain—low boiling points for easy starting, medium boiling points for quick and smooth acceleration, high boiling points for power and mileage."

"And only straight-distillation can give this. No mixture can embody all the hundreds of intervening fractions necessary for a perfect motor fuel."

"To be certain of straight-distilled, unmixed gas, buy

## 500 LIVES ARE LOST IN TORNADOES

CHICAGO, June 7.—More than 500 lives have been sacrificed in the Middle West and Southern States in the last two weeks to the death-dealing giant that rides on the wings of the tornado. A compilation of revised figures of the total dead in an area comprising ten States, indicates a list of 522, a staggering number of injured on which no figures have been kept, and property losses that aggregate many millions of dollars.

The following table is based on the latest reports from the States that were swept by tornadoes and cyclones since May 25:

Kansas, May 25—26.  
Illinois, Indiana, Missouri, Kentucky, Tennessee, Mississippi, Arkansas, May 26—29.

Kentucky, Tennessee, Arkansas, Alabama and Mississippi, May 27—160.

Missouri and Southwestern Illinois, May 28—63.  
Kansas and Missouri, June 5—81.

Kentucky and Michigan, June 6—8. Hundreds of thousands of dollars have been contributed for the relief of the thousands who have been made homeless by tornadoes. The American Red Cross headquarters in Chicago is directing organized relief work in the Middle West States and suffering among the victims of storm late yesterday. The property aid furnished by the military organizations of the different States.

Red Cross officials are working on the stupendous task of compiling figures on the number of persons injured and the property loss in the tornado districts. Such a variety of reports have reached headquarters that no estimate can be made on either until all the figures have been carefully compiled.

**NEW DEATHS.**  
Thirty-nine persons were killed and millions of dollars' worth of property damaged by tornadoes which swept through Kansas, Missouri, Kentucky and Michigan during the last thirty-six hours.

In Michigan three persons were killed and thirty injured by a tornado which swept the southern part of the State from Jackson nearly to Detroit late yesterday. The property loss was estimated at \$1,000,000.

Five persons were known to have been killed and a score injured by a tornado which struck Beaver, Ky., late yesterday.

A series of tornadoes in Missouri and Kansas Tuesday night and early yesterday took a toll of fifteen lives in the former State and nine in the latter. The injured number more than 150. The damage was believed to exceed \$2,000,000.

**DAMAGE IN DETROIT.**  
DETROIT, June 7.—Damage amounting to about \$750,000 was wrought and four lives were claimed by the terrific windstorm which swept across Central Michigan yesterday. The district, which includes Battle Creek, Ann Arbor and Jackson, sustained most of the damage. A score of persons were injured.

Wire communication was restored today to all cities in the storm area. Battle Creek reported about \$300,000 damage. No one was killed there. Seventeen persons were hurt.

Springport, Jackson County, and the vicinity, were in the path of the storm. Ten houses were destroyed and one woman died of heart disease. Three persons were killed in Washtenaw county, near Ann Arbor. Eaton and Ingham counties were touched by the storm. Farmers reported serious crop damage.

## CHARGES FLY IN VON DER ROPP SUIT

Parental disapproval versus an alleged affinity is to form the basis for the press and cons of a divorce action which has been filed in New York against Olga May von der Ropp, former cabaret entertainer, by her husband, Alfred von der Ropp Jr., son of a prominent factor in the Consolidated South American Gold Fields, Ltd., and former Stanford student.

The parental disapproval is said to be on the side of the von der Ropps, who, according to statements alleged to have been made to the entertainer by her husband some time ago, have agreed to finance the divorce action. The alleged affinity is outlined by the husband as an actor named Horace Founds, and is accused of having accompanied Mrs. von der Ropp on numerous inter-city excursions.

Lurking in the background of the marital tangle is a suit for \$25,000 against the von der Ropp instituted by the fair defendant in the divorce action, who claims that her husband's affections were alienated by his parents. She avers that instead of responsible responsibilities of wedded life, von der Ropp junior permitted himself to be persuaded that he should finish his college education at Stanford University, and is now living at Trone, busily engaged in university extension work.

The young couple were married in November, 1914. They lived together until January, 1915, a matter of three short months, when von der Ropp fled him to this State. The husband in his suit declares that within a year after Olga May Fisher's beauty had set the hearts of Yale boys on fire, she became enamored of Founds, the actor, and accompanied him to various cities.

Baron von der Ropp, father of the plaintiff in the divorce case, was a member of the New York executive committee at the Exposition and is well known in the bay district. He is an art critic and recently purchased some of the best known marine paintings at the Bohemian club in San Francisco. He is extensively interested in potash fields near Searles lake. The son was a member of the 1915 class, matriculating from the Sheffield scientific school at Yale, and won fame as a local carman.

## ELKS WILL DEBATE

"Resolved, That San Francisco is a better community in which to raise a family than in Oakland," is the subject for the debate this evening at Bench and Bar Night of the Oakland Lodge of Elks. The affirmative will be assumed by Raymond Benjamin, assistant state attorney-general, and William Abbott, attorney for the United Railroads. Fitted against them will be Robert M. Fitzgerald and John W. Stetson of this city.

Other features have been arranged by the committee: Judges Melvin, Wells and Owen; Frank Cowan and Howard E. Pratt will give vocal solos and Judge Jerome Dunne will give readings from Kipling and Whitcomb Riley.

## MERCHANT'S WIFE ADVISES OAKLAND WOMEN

"I had stomach trouble so bad I could eat nothing but toast, fruit and hot water. Everything else soured and formed gas. Dieting did no good. I was miserable until I tried buckthorn bark, glycerine, etc., as mixed in Adler's ka. ONE SPOONFUL benefited me INSTANTLY." Because Adler's ka empties BOTH large and small intestines it relieves ANY CASE of constipation, sour stomach or gas, and prevents appendicitis. It has QUICK action of anything we ever sold. Osgood Brothers, Druggists.—Advertisement.

## How to Rid the Skin of Objectionable Hairs

(Aids to Beauty)

A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required: Mix a stiff paste with some powdered delatone and water, apply to hairy surface and after two or three minutes rub off with the skin, and the hair has been removed. This simple treatment cannot cause injury, but care should be exercised to get real delatone.—Advertisement.

## Have You Backache, Gout, Rheumatism?

(By M. C. Lucas M. D.)

American men and women should guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog, and the result is kidney trouble, bladder weakness and often the poison reaches the tissues, causing rheumatism and gout.

When your kidneys feel like lumps of lead, when your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, when you suffer with sick headache, or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, ask your druggist for Anuric (double strength). I have found in practice that Anuric is more potent than lithia and is more cases it will dissolve the uric acid as hot water does sugar.

Their tongue has a dark brown color, skin sallow, breath bad, yet they fail to see that their machinery needs attention. Everybody should take a mild laxative at least once a week. A pleasant way to clear the tongue and the highly colored water noticed in the morning is to take a laxative which will cure the inactive liver and biliousness.

A pleasant vegetable pill is made up of May-apple, leaves of aloes, and jalap, made into a tiny pellet and coated with sugar. First put up by Dr. Pearce nearly 60 years ago. Druggists sell these vegetable pellets in vials, simply ask for Dr. Pearce's Pleasant Pellets—Advertisement.

## THE "COME-BACK"

The "Come-back" man was really never down-and-out. His weakened condition because of over-work, lack of exercise, improper eating and living demands stimulation to satisfy the cry for a health-giving appetite and the refreshing sleep essential to strength. GOLD MEDAL Haarlem Oil Capsules, the National Remedy of Holland, will do the work. They are wonderful. Three of these capsules each day will put a man on his feet before he knows it. Whether in trouble comes from uric acid poisoning, the kidneys, gravel or stone in the bladder, stomach derangement or other ailments that befall the over-taxed man, don't wait until you are entirely down-and-out, but take them today. Your druggist will gladly refund your money if they do not help you. Accept no substitutes. Look for the name GOLD MEDAL on every box. Three sizes. They are the pure, original, imported Haarlem Oil Capsules—Advertisement.

## EPILEPTIC ATTACKS STOPPED

## BIG CROWDS SEE SHOWS AT ORPHEUM.

"Standing room only" is the slogan at the Orpheum these days. The new mid-summer show has made such an enormous hit. Rose Stables' play, "Maggie Pepper," is being produced by the Orpheum Players, in splendid style. Besides this four-act play, however, there is a noteworthy musical revue, a scenic sensation, called "Thirty Minutes at Capwell's Roof Garden," which is a show in itself. Jane Urban's "Twelve Roschude" takes part in this scenic revue and their music this week is rarely beautiful.

The stage is transformed for this musical affair into a reproduction of Capwell's Roof Garden by moonlight. The illusion is almost perfect. One sees the City of London, the Tower, and other landmarks in the region of the down town district. Soft lights, beautiful gowns, pretty girls, delightful music, all make a fascinating affair. Other noteworthy features on the program include Frances De Gossart, "The Blackbird" who was last seen in a vaudeville act at the Orpheum, and Eddie Tyson, known as the boy McCormack, in new selections. Rosebrook's big jazz orchestra sets the feet of the crowd to patting with his syncretized stuff.

The Orpheum management announces for next Sunday an elaborate production of Oliver Morosco's great musical comedy success, "Noblesse Oblige." Home, Mona, Rodolph, former dancing partner of Joan Sawyer, and until recently the dancing feature of "The Masked Model" has also been especially engaged.

"SOMETHING DIFFERENT" SEEN AT COLUMBIA.  
 "Something Different" the new musical melange being presented at the Columbia Theater is a delight to the patrons of the theater who are in a continual uproar of merriment from the moment Herman King's jazz orchestra starts up the overture until the complications are finally unraveled at the closing scene.

"Something Different" as the name indicates, is an unusual pot pourri affording Will King an opportunity to score heavily throughout the play. The characterization of "The Leschinsky" who essays to conduct a sculptor's studio and has all sorts of trouble ensuing. As a model of clay, King is a scream and his work is meeting with the unanimous approval of his audiences.

The musical program forms a big feature of the show and includes "The Road to the Girl You Love," by Jack Wise and chorus, "The Art of Making a Man," by Ruby Adams, "I've Got a Cute Little Way," by Almy, "I'm a Little Bit," by Ruby Adams, "I'm a Little Bit," by Ruby Adams, "I'm a Little Bit," by Ruby Adams.

Special performance will be given to-night and tomorrow night. This evening will be the big County Store.

## SAND PAILS FOR IDORA VISITORS.

Every boy and girl under five years of age who visits the County Store will be given a sand pail and shovel. And Saturday will be known as "Sand Pail Day" at Idora. A large number of shovels is on hand. These will be distributed at the Idora Beach and outdoor swimming pool.

Saturday afternoon a splendid program will be presented in the Amphitheater, the third of the productions to be staged under the direction of the recently created Children's Theater.

Miss Vivienne Tweedle, the Alameda teacher of aesthetic and dancing, will present a Russian skating dance. Rosamund Miller in a fairy dance, Alice Deaver in a Russian dance, and a Russian dance by Pauline and Alice Weaver in the Spanish Ballerina.

Another feature of the program will be the skit "Three Wishes" as given by Estelle Krauch, Emma and Fred Schwab. A comedy sketch will be given by the polo championships will be held in the monster open air pool. The teams will represent Idora and Piedmont.

## KINEMA BARS IS KINEMA FEATURE.

The Kinema Bar started yesterday at the Kinema Theater. She-the celebrated tiger, or leopard, as you will, has changed her spots. Our most lurid screen vampire first appeared in this latest Fox production as an innocent young girl, and finally as an angelic and much abused wife.

That's the story of "The Great Love," which is an adaptation from Quind's famous novel "Moths." This time, Miss Bar is more sinned against than sinning, for she has a husband who is a libertine, with whom she is forced into marriage, although she never loved him. A sensational two-act Keystone and fine Idora Film production rounds out the well-balanced program for the balance of this week at the Kinema.

## SOIL PEDDLERS PLAN REVEL AT BEACH.

The men who barter in Oakland soil will forget the "condition of the market" next Saturday when they meet in the garb of nature lovers at Neptune Beach in the culmination of the grandest Home First movement. All manner of interesting and thrilling events are on the cards for the men of the street.

Foremost feature of the day will be the effort of a daring contractor to assemble a modern five-room bungalow in the short time of eight hours. While the sands of 480 minutes pass and fall, A. T. Spencer, the man who is willing to wager \$1000 and his reputation, will employ the last word in constructive efficiency in a frenzied effort to put together from the ground to the shingled apex a new bungalow.

But what will please all of these men who are daily immersed in the details of putting over a putting over the deposit on a deal will be the pretty Neptune mermaids, some twenty in number and comely and dainty, who are scheduled to cavort and frolic in festive pranks for the tired business man of Oakland. "See the mermaid dive," will be the watchword.

NEW EXTRAVAGANZA SEEN AT BROADWAY.  
 "Trouble's Troubles" the musical comedy hit at the Broadway this week, make man forget the usual routine of the great comedy hit. At all shows, Sunday, as well as Monday and Tuesday, audiences stamped their approval. The beautiful Broadway beauty chorus in the funny singing and dancing specialty "Jasper's Farm," were repeatedly roared.

Alice (Babe) Lewis is in the lead as Mrs. Troubles. "Trouble's Troubles" is a genuine "laughing show." The scene takes place in an artist's studio, where various complications arise and laughter reigns supreme as the result of the various "troubles."

The spirited chorus girl's contest tomorrow night will abound with clever specialties and amusing features. On Tuesday and Thursday nights the big "Country Store" prevails.

## COMEDY BILL AT PANTAGES ATTRACTS.

Headed by "The Phan Friends" and Chris Richards, the most famous of English comedians, the bill this week at the Pantages is one of the big attractions of the week, and crowds of houses every night are attesting to its popularity.

Chris Richards, movie comedian and music hall idol, is one of the unique figures on the stage today. His agile comicalities mean literally a continuous laugh.

Paul Decker and Co. present their novel sketch "The Twister," a neat bit of comic acting and an uproariously funny story. The author of this play, Chas. Mandel, is the man who wrote "The High Cost of Living," Kolb and Dill's greatest success.

Besides these are the Marconi Brothers, the Kilmwa Japs and other big features.

New week comes "The Girl From Amsterdam," a complete miniature comic opera adapted from the famous New York City and with the original cast, and also Reoch and McCurdy, original stars of "Way Down East" in their great skit, "A Touch of Nature." The American War Weekly and the "Secret Kingdom" continue to please.

## ENGRAVERS MEET

ST. LOUIS, Mo., June 7.—With delegates from all parts of the United States and Canada invited, the annual convention of the Photo-Engravers opened here today. The session will close with a banquet on Saturday evening.

# CHARITIES SCORED AS UNSCIENTIFIC

## PITTSBURGH, June 7.—Chaotic conditions in the administration of private charities due to lack of regulation on the part of state governments were revealed in a discussion here today at the National Conference of Charities and Correction.

The evils that have arisen, are due chiefly to lack of systematic inspection and advice, according to the leader of the discussion, Robert W. Kelso, secretary of the State Board of Charity of Massachusetts.

Thousands of worthy old men and women in the United States were pictured as suffering for lack of scientific care and affection at a meeting here of the National Conference of Charities and Correction today. The situation was described by Dr. L. L. Nasher of New York City, who is one of the leading authorities of the country on the care of the aged.

San Francisco, June 7.—Carlton E. Miller, millionaire yachtsman, is recovering from the effects of an accident in the bay off California City when a hydroplane in which he was speeding at sixty miles an hour capsized and sank. He was unable to free himself, and, as he was being pulled under the water, would probably have been drowned had he not been rescued by sailors on a United States warship, who witnessed the accident. By the time the sailors reached the scene of the accident, the hydroplane was rapidly sinking with the great weight of the engine. Miller was unconscious when dragged to safety, but was quickly revived when taken aboard the warship. Later he took part in an attempt to save the hydroplane from the bottom of the bay.

# RESCUED FROM SINKING RACER

## ASK AID OF U. S.

WASHINGTON, June 7.—Refugees from the Grand Duchy of Luxembourg, now in exile in Paris, have petitioned President Wilson to direct American attention to the cause of their country, which, in a statement made public by the State Department today, is shown to have been invaded by Germany in spite of her treaty agreements and enslaved to Prussian rule much as Belgium has been.

## Extra Special for Friday and Saturday

50c Harmony Cocoa Butter Cold Cream  
 15c Trailing Arbutus Talcum

## Both for 50c

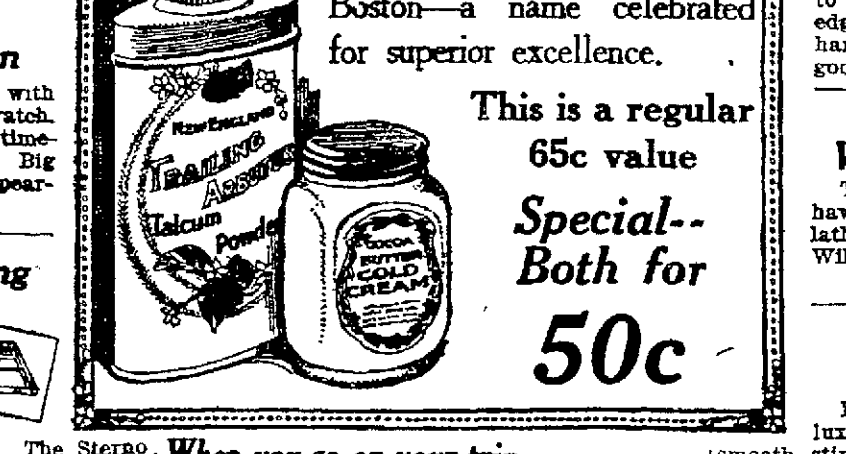

Cocoa Butter Cold Cream is especially recommended as a tissue builder and skin beautifier. Contains 12 per cent cocoa butter, which is readily absorbed by the skin tissues with most beneficial effect.

The use of this cream softens and refreshes the skin, with marked improvement of the complexion. It is daintily perfumed.

The velvety smoothness of the talcum, combined with a fragrance of New England Arbutus, makes it especially refreshing and delightful in warm weather. It is soft and cooling to the skin and eliminates the odor of perspiration. Especially pleasing for use after the bath.

Both of these preparations are made by Harmony of Boston—a name celebrated for superior excellence.

This is a regular 65c value Special—Both for 50c

## When you go on your trip

you will enjoy it all the more if you have one of the pretty roll-ups we have just received from the East. The outside is made of dainty flowered cretonne, bound with braid. The inside is lined with rubber to make it moisture-proof, and then there are all the cunning little pockets for brushes and combs and talcum and all that. You can buy an exceptionally pretty roll-up for 75c.

## New Style of Face Cloth—10c

One of the prettiest and daintiest we have shown. Turkish finish on one side—smooth on the other. The border is unique and attractive—shell-stitched in purple, brown and fast colors. A face cloth of quality... 10c

## A Delightful Complexion Aid

If you delight in a new and dainty complexion powder, as most women do, by all means try Red Powder. It has all the delicate purity that fastidious women like. And it is adherent—does not blow off readily. Also, it blends beautifully with the rouge. The price, too, is reasonable—50c per box. We know you will like it.

## 1917 Styles in Beach Caps

Bows and rosettes are quite the vogue this year in beach caps. Bright colors, too. Vivid greens, blues, and reds. The fineness of these new models give dash and femininity that mark them as real creations. Substantially made of an excellent quality of rubber. We have them at 29c, 50c, 75c and \$1.00.

## Learn to Swim at One Trial

with the aid of water wings. They hold you up in the water. Give you perfect safety, help you to learn to swim and provide great sport. Especially useful and enjoyable for children. Take up little room when not inflated. Support from 50 to 250 pounds. Pair, 35c.

## BERGOVICH BURIED WITH ARMY HONORS

Impressive military services were held today for the late Samuel O. Bergovich, merchant and financier, who succumbed to injuries received in a Sunday automobile accident. Members of Camp Lucum, Spanish War Veterans, with whom he served his country in 1898, accompanied the body to its last resting place.

The body for a part of the way was placed upon a gun-carriage, covered with the American flag. At the Municipal Auditorium, after a march through downtown streets, the funeral cortege proceeded to Home of Peace cemetery where interment took place. Services were held in the Brown chapel, Thirteenth and Jefferson streets. Members of Regimental Lodge, No. 172, Knights of Pythias, were also present at the last rites of their fellow member.

Bergovich was a native of Hungary, aged forty-three years. He had resided in Oakland for many years. Surviving him are a widow, Mrs. Minnie Bergovich, four sons, Freddie, Wesley, Alvin and Leslie Bergovich; three brothers, David, William and Harry Bergovich; and five sisters, Mrs. Pearl Lerner, Mrs. Minnie Markovitz, Mrs. Rebecca Schwartz, Mrs. Fannie Bergovich and Mrs. Marjorie von S.

Bergovich expired yesterday from a fractured skull which he incurred when his automobile, containing a merry party, overturned near Michigan and pinned him underneath.

## SHIELDS IS HEARD

James Shields, the young special officer of the Berkeley police force, who shot George Sherman while the latter was running away from a subpoena for jury service last March, took the stand in his own defense this morning in Judge F. B. Ogden's court, where he is being tried before a jury on the charge of assault with a deadly weapon.

He testified that Sherman had refused to accept the subpoena and ran across the street. While he was pursuing the fleeing man, he said, he took hold of his revolver to prevent it from slipping from the holster and that the weapon was accidentally discharged.

## ASKS PARK ZONES

Mayor Davis today introduced in the city council a proposed ordinance creating zones surrounding city parks from which hospitals would be excluded. The matter was postponed until tomorrow.

Dr. M. M. Enos has applied for a permit to construct a private hospital in Grand avenue adjacent to the park and protest was raised by residents in the district.

## MUST PROVE HER IDENTITY BEFORE SHE CAN MARRY

Until Mary Sears can prove she is not Mary Marshall she cannot get from Stewart Gemmell, marriage license clerk at the Hall of Records, a license to marry Arthur E. Miller, which already is made out and awaiting proof of the identity of Mary Sears.

The license was made out yesterday afternoon. While Miss Sears, or Mrs. Marshall, was standing with Miller at the marriage license desk Attorney P. R. Fernhoff happened along. Calling Gemmell aside he said:

"Is Mrs. Marshall getting a license to get married? If so, she has no right to it. She has a divorce suit pending."

"Cupid" Gemmell thereupon refused the license until the woman could prove to him that she was not Mrs. Marshall. Up to a late hour today neither party had returned for the license.

Miller gave his address as 3337 West street.

## PAVING OPPOSED

That property owners in Madison street between Tenth and Twelfth streets would "rather spend their money for Liberty Bonds" than for the paving of that thoroughfare, was declared by Mark Ryan in protesting the improvement before the city council today.

The proceedings were started by the street department six months ago when they were held in abeyance at the request of property owners. Ryan, in reviewing the protest today, said that one of the objections is that the frontage owners believe that the improvement should extend south to Seventh street and further, that in these war days money can be put to better advantage. The matter was continued for six months.

## TO GIVE CONCERT

Mary Alverta Morse, vocalist and teacher, will be heard in song recital this evening at Sorosis Hall, San Francisco, with Uda Waldrop at the piano. Since her return from New York, Miss Morse has sung frequently at studio concerts and informal affairs, but this will be the first occasion at which she will have appeared in recital open to the general public. An interesting program has been prepared. Miss Morse is a sister-in-law of Judge Henry A. Melvin, associate justice of the state supreme court.

## ADULTERATION OF LIQUOR CHARGED

Warrants were issued in Judge Samuel's court today for the arrest of ten Oakland saloon keepers and liquor dealers who are alleged to have sold as genuine imported liquor, quantities of cheap domestic whiskey and wine. C. B. Heiler, food and drug inspector of the California State Board of Health, swore to the complaints after discovering that in certain Oakland saloons home-made "lags" were handed out and paid for as imported liquor prices. Following are the saloon and liquor dealers against whom warrants were issued:

A. E. Weiland, 207 Adeline street—Four warrants charging him with using imitation Scotch and French liquors and adulterated liquors.

Edwin J. Wong, 522 Sixteenth street—Four warrants, one alleging adulterated coffee and three for using imitation liquor from imported bottles.

French Liquor Store, 5711 San Pablo avenue—Three warrants, all on alleged imitation liquors sold under imported labels.

Henry Holman, saloon at Seventh and Wood streets—Three warrants, alleging "genuine" imitation (contraband) and two imitation liquors, brandy and gin.

R. E. Reeves, 1034 Wood street—Manufacturing department warrants, one on Scotch whiskey, one on brandy and one on imitation Scotch whiskey.

W. J. Thiburn, saloon at 1250 Seventh street—One warrant charging imitation French brandy.

Los Angeles Importing Company, 404 Fourteenth street—Two warrants, alleging imitation of three-star Hennessy brandy and one on imitation brandy.

The Glen Wine Company, 1223 Washington street—Alleged mislabeled alcohol and labeling "double strength" for less than standard single strength.

Aubrey & Williams, saloon at 1000 Franklin street—Two warrants alleging Jamaica rum and Scotch whiskey. These sold in bottle with accredited labels.

## 'WITHIN THE LAW' IS GRIPPING FILM

Jails do not ordinarily produce financiers, nor are several years of prison a rule often responsible for the convicted one's rise in life. Nevertheless such things happen so successfully in "Within the Law" that the film built from the play together with Alice Joyce, the artistic screen star enacting the lead, is exceedingly likely to keep the T. and D. theater crowded this half of the week.

The screen version of this drama of Bayard Veiller, while constructed from such cheering material as prison bars, brutal detectives, crooks, poverty, boudoirs compromising letters and murder is not depressing to watch. Rather it is like an absorbing detective yarn, not too far from the possible. Alice Joyce is probably responsible for this agreeable result.

She has carefully refrained from treating her audience to the overdone tragic grimaces of Amy Lynch, the loyal and unscrupulous little girl of the slums, assists her in lightening the effect.

For the benefit of those who are unfamiliar with the plot of the film that is now the attraction at the T. and D. Theater, it might be summed up as the triumph of a shop girl who has been arrested and sent to prison for the theft committed by another girl. In prison she takes up the study of law, and being gifted with an unusual brain, made use of her knowledge to succeed in several curious enterprises. Everything Mary Turner does—that is her name—is amazing, but sufficiently convincing.

The entire cast is satisfactory and the settings strenuously correct. If Miss Joyce were a woman who would sacrifice her crop of movie curls, and adopt another style of coiffure, the strongest objection would be removed.

In spite of curls the film is very striking.

## PIONEER WOMAN CALLED BY DEATH

Following sixty-five years' residence in Alameda county and almost as long an association with religious and social institutions of Oakland and vicinity, Mrs. Margaret B. Cooper died today at her home, 2325 Durant avenue, Berkeley. The funeral is planned for Saturday afternoon at 2 o'clock. Following a service in the Brown chapel, Thirteenth and Jefferson streets, under auspices of the Rev. E. L. Parsons, Berkeley St. Mark's Episcopal church, interment will take place at Mountain View cemetery.

Mrs. Cooper was seventy years old. She came to California as a child. Her father was J. M. Buffington, first president of the local Y. M. C. A., and founder of the Oakland organization. He was also prominent in religious and financial circles of Alameda county and of the entire bay district.

Widow of the late Eugene T. Cooper, prominent in church work here in the past, she has for the past few years resided in Berkeley. When Stanford university first opened she established a dormitory at San Carlos in a futile effort to combat the poor housing facilities at the time. Establishment of campus homes for students ended her enterprise. She was especially well known as a member and donor of the local Y. W. C. A. An apartment in the local building is dedicated to her.

She is survived by a brother, William H. Buffington of San Francisco. Her residence here began shortly after the city's establishment. She was a native of Massachusetts.

## SHARON CLAIMANT APPEALS BIG CASE

SAN FRANCISCO, June 7. — Despite the signature of Superior Judge J. V. Coffey to the decree ordering distribution of the \$2,000,000 Sharon estate among the heirs and his overruling of objections entered by attorneys for Frederick Wallace Sharon, Tacoma claimant for half the dead millionaire's fortune, appeals against the final settlement were immediately filed before the Supreme Court together with plea for a new contest.

The new case will be identical in form to that just fought out before Judge Coffey, which ended last Friday when the court ordered the jury to bring in a verdict favoring the Tacoma company. Nine of the jurors refused to bring in the verdict, and not until Judge Coffey selected a new foreman, who promptly signed the verdict for his two companions, did the case come to an end. The attorneys for young Sharon expressed bewilderment at what they termed "Judge Coffey's unusual legal action."

According to Attorney J. M. Oliver, chief counsel for the man who claims to be an adopted son of F. William Sharon and who lost a fortune by Judge Coffey's decision, the appeals for a new trial were merely precautionary measures to be exercised only in case the appeals to the higher court were refused.

The Sharon will provides that one-half of the \$2,000,000 estate shall be given to the widow, Mrs. Laura Lewis Sharon, one-eighth to a sister, Lady Florence Herketh of London, one-eighth to her son, Thomas Herketh; one-twelfth each to two nephews, "Uncle" Lewis Johnson and Janet Newlands Johnson; and one-twelfth to a grand niece, Fredericka von Brodow of Germany.

## Electricity—the Friend of Man, and Also the Foe of Man

WHEN harnessed up by science it is one of Nature's most valuable gifts. When it is not under control, it often spells ruin. There are few things wholly evil or wholly good. We all know dyspepsia arises from immoderate eating, but it is also unhealthful to eat too little. Over-indulgence in anything is bad. Because of this we were given the heaven-born power of reasoning, in the not-too-much of anything.

Our sovereign brew BUDWEISER has for sixty years been a beverage of sane moderation. It has untold numbers of friends in every civilized land because of its Purity, Quality, Mildness and exclusive Saazer Hop Flavor. BUDWEISER sales exceed other beers by millions of bottles.

**WAR IS A SERIOUS BUSINESS.**

Official announcements by the British war office show that the casualties among the British forces in France for the month of May were 112,000 officers and men. The number of French soldiers killed, wounded or missing totals upwards of 200,000 for the same period. The casualties among the German armies on the western front for May was approximately, as estimated from the available reports, 360,000 men. On the Isonzo and Julian fronts the Italians claim to have killed or otherwise put out of action over 200,000 Austrians, and the Austrians claim that Italian casualties were 160,000. No figures have been published as to the losses in Macedonia, Albania and in Mesopotamia. About one million men were killed, wounded or "missing" during the month of May, 1917.

This should impress upon the minds of all that war is war and a serious business.

Mr. Herbert C. Hoover says that the war may last five years and he is not given to taking an exaggerated view of misfortune. Mr. Hudson Maxim says that the war probably will cost America 2,000,000 men and all know that that may prove true.

These are things we should bear prominently in mind when considering the questions of tolerance and sympathy for those who are trying to interfere with the government's efforts to wage the war successfully, in order to bring it to a speedy close. Alien residents and American citizens of foreign birth who are doing their best to conform to the laws of this country should receive the most kindly treatment, supported by sympathy for their situation. Until they are discovered in some overt act of disloyalty it would be ungenerous and unmanly to attempt to cast suspicion upon them.

But no measure of sympathy or tolerance should be shown any person who is found guilty of acts or intentions to interfere with the prosecution of the war. Some aliens, naturalized, and native-born citizens conspired to interfere with the registration of men for military service. They probably will be found opposing the execution of the selective draft system of creating the necessary military forces to win this war. Plots to interfere with transportation facilities, food production, munition making and other necessary work are active in different communities. The persons connected with these enterprises are enemies of this government; if they are aliens they are spies within the country's military lines, and if they are citizens they are traitors and guilty of treason.

They are conscious of what they do and mindful of the penalties that have been prescribed for their crimes. They deserve no sympathy and no mercy. They are the most dangerous kind of enemies and the government cannot afford to be easy with them. They should not be confused with residents in this country who are honestly obeying the letter and the spirit of the laws and military regulations.

**STILL PLAYING POLITICS.**

Apparently the greater portion of the Democratic members of the United States Senate find it impossible to forget politics and jobs for their constituents during the present national crisis. In their decalog the precept of Andrew Jackson concerning spoils takes first place.

President Wilson the other day nominated Mr. Lester H. Woolsey to be solicitor of the State Department. This is one of the most important positions in the department next to the Secretary of State. Mr. Woolsey is eminently fitted for the office. He has been in the State Department for many years and was secretary to Mr. John B. Moore when the latter was counselor of the department, and he has from time to time discharged the work of the solicitor's office with conspicuous ability. He has been in close touch with all the details of international affairs during the last three years, and particularly with matter relating to foreign trade and treaties. His nomination seemed to have been dictated by the fundamental principle of merit, and was one of those rare acts in the filling of important government offices which inspire the people with the hope that there may be a little common sense on display after all.

But the Democratic Senators have found something wrong with Mr. Woolsey's record; he has not always been a Democrat. He had voted as a Republican until 1912. It is true that he has voted for Mr. Wilson for President twice, but that is not

sufficient. The recommendation of the Secretary of State and the Attorney-General was not equal to silencing the opposition. The real reason for this is because two or three "deserving" candidates for the solicitorship have been interviewing the Senators, and when politicians want a political job merit must go begging.

The Republican Senators have given notice that they will vote solidly for the confirmation of Mr. Woolsey, and it is not of record that they inquired how he would vote after Mr. Wilson's retirement from political life. So the President has had to write another "vigorous" letter to the Democratic Senators explaining that he believes that governmental competency should receive earnest consideration at this time. That is how it became known that some of the Senators are still pitting politics against efficiency in filling a \$5000 job.

**WHAT HAVE YOU DONE?**

Many types of citizens are recognizable as we go about our daily affairs.

There are lots of men who carry a flag, waving it strenuously, and who cover their automobiles with the national colors.

There are others who are first to spring to their feet when the national anthem is played.

There are some who have cut their dinners down to four courses and who have planted "war gardens" in their back yards.

There are others who cry aloud against the "boches" and for vengeance upon the murderers of the women and children of the Lusitania and for punishment for those guilty of the rape and enslavement of Belgians.

All these signs are praiseworthy and represent distinct phases of the national spirit. But there are other types of patriotic citizens.

There are those who have enlisted in the army, the navy, the ambulance companies already at the battlefield, or in the hospital and Red Cross service.

And there are those who have purchased Liberty bonds.

To which of these classes do you belong? Or are you giving material assistance to the nation's defense in any way?

**SACRIFICE AND FAITH.**

The Oakland city council and the Alameda county supervisors have formally resolved to sign all official letters with this patriotic slogan:

"Yours for victory through sacrifice and faith."

There may be some cases in which this does not express the sentiment of the writer, but nevertheless it states a vital truth.

Victory can be achieved only through sacrifice; to many it will mean the supreme sacrifice of life. Such cannot be given without faith in the government of the nation, in democracy and civilization; faith in the ideals that have been raised up in this land through the sacrifice of the lives of patriots of our own and earlier periods in the nation's development.

France has restated her peace conditions. They include restoration of the territory occupied by the enemy and reparation for the damage done on French soil. France cannot be satisfied with less. Reparation and restitution must not be confounded with indemnities as the fruit of victory. Full reparation must be exacted for the ruthless outlawry practiced on land and sea by the Prussian government before law and justice may be satisfied. Otherwise there can be no guarantee for future peace. If the governments and the people of the central powers are not impressed with the fact that they cannot violate the law of nations and the recognized rights of humanity, incontinently break faith with friendly governments and disregard the legal rights of peaceful and innocent noncombatants without punishment for such crimes, then the object of the allies in this war will have failed of accomplishment. If the Russian Socialists and the German-planted conference of Stockholm object to fulfillment of the demand of the law for the just punishment of crime, they are opposed to all law and order and must be disregarded in the discussion of peace conditions.

**SHIPS, SHIPS, SHIPS.**

(New York Times)

General Goethals and Mr. Denman have many friends eager to praise them both and regretful of any controversy between them. The case does not call for decision in favor of either. The decision over the submarines would be equally welcome by whatever means obtained, or by whatever combination of means. There is no means and no man superior to a combination of all means and all men. There is an enemy among us as well as overseas in the spirit which prevents co-operation. The public will be glad to see General Goethals build all the steel ships he can and Mr. Denman build all the wooden ships he can. There will be none too many of either or of both. It would be better that there should be a large surplus than the smallest deficiency. Of course steel ships are better, and General Goethals is the very man to build the most possible, in the quickest time, with the least cost. More power to his elbow.

But that is no reason why there is not a place for the wooden ships. A sample of them was recently seen at a dock in Brooklyn. It would give a sailorman night mare. The sap oozed through the single coat of paint over green timber. She had an ordinary kitchen stove, because she would have had to wait a day or two for a regular ship's galley. She had no bunks or berths, because ordinary iron berths could be set on her floors without delay. There was no fault this sailorman's horror did not have, except that she did not sink. She was a good enough boat for a submarine to sink, and she would pay for herself with the first cargo she carried. It would be wicked to build such ships for peace. It is praiseworthy to provide them while better boats are preparing. Just so there is now an exceptional demand for ships, ships, and more ships for a special purpose. Their cost and excellence as ships is of no consequence. If the wooden ships would prevent the construction of iron ships, something might be said against them. But the two proposals are parallel, not conflicting. There is no competition between the forests and rolling mills. The men who work in either cannot work in the other. Both sorts can be outfitted with engines and boilers from shops not ordinarily used for such work. They can both carry food to the starving, and there are Americans capable of smashing a submarine with a shot from the decks of any of them. Let Mr. Denman beat General Goethals in prompt shipbuilding. Let General Goethals teach Mr. Denman how ships should be built. There is work and glory enough in either job. If either got in the way of the other, the case would be different, and there would be blame as well as praise in the proper quarter.

**NOTES and COMMENT**

"Berlin Induces Turks to defend Jerusalem." Shows how it has become necessary to brace up one of the Central powers to fight its own fights. The Turks had decided to abandon Jerusalem.

The Ad Club is to come this way in 1918. It will be one of the biggest things for California that will happen in that year.

The news is so fragmentary that at this distance it cannot be judged just how it is with the Keet baby, which has been stolen and is held for ransom, but it seems to be a very unusual case, wherein a rich parent is willing to stand for the kidnappers' demands, but the authorities butted in and complicated the situation.

According to the Goldfield Tribune the commander of the American forces is a sort of counter-irritant: "General Pershing hails from Missouri and that is something of an offset for Champ Clark and 'Gumshoe Bill' Stone when it comes to war votes."

This calamity prediction falls to worry the Stockton Mail: "Professor Snyder, of Griffin, Ga., warns the world that a giant comet is headed this way. Oh, shucks! What do we care about a giant comet at a time like this? And where is Griffin, Ga., anyway? Never heard of it. Buy a Liberty bond, professor, and shut up."

Vouched for by the Marysville Appeal: "The poor shooting of the man who let go at the Kaiser reminds Tom Daly of the sermon preached by Father McGettigan, C. P., of Ballynecarty, Donegal. 'Drink,' said he to the people, 'drink is the besetting sin of ye. Shame on ye, shame! Drink that makes ye shoot at the landlords—'an' miss 'em!'"

The Nevada City News states the case: "Constance, you are wrong. Gaelic and garlie are two distinct languages. The former is spoken with a mouthful of hay and the latter is inhaled."

The Chico Enterprise agrees with the native daughter: "Californians will readily believe the testimony of a native daughter of this State that Palm Beach, for climate, has nothing on Santa Barbara, and that even as a swamp the Yolo basin has the Everglades skinned to death."

Unanswerable logic from the San Jose Mercury: "When a big man is mean, he is meaner than a little man. There is more of him to be mean."

From the Gold Hill News, and not entirely definite, though entertaining: "Ladies are requested to bring all packages wrapped and addressed with the letters of their name mixed, to the committee at the church on Friday, June 8."

Richmond Record-Herald on food speculation: "Joseph T. Lister, the food speculator should be hung. We recall a time when Mr. Lister boasted the price of wheat so high that it cost his father one of the best corner buildings in Chicago to settle his son's debts. Joey probably only wants the speculators who win hung."

A German "committee" which is considering peace proposals the dismemberment of Russia as one of the steps toward it. Remembering the dismemberment of Poland, and how in nearly 150 years that has not proved a pronounced peacemaker, there will be doubts as to this last proposal.

This one is from the Seattle Post-Intelligencer: "Two members of our mission to Russia are Elihu Root and Charles Edward Russell. 'Root' and 'Russell' are two American words which the new democracy ought to understand."

**SPIRIT OF THE STATE PRESS**

An investigation of the conditions in Vallejo complained of by Rev. Paul Smith, vice crusader, and former Senator Edwin E. Grant, author of the red light abatement bill, has been ordered by United States Attorney John W. Boston on the ground that the existence of houses of prostitution and vicious saloons near the Mare Island navy yard are a menace to the welfare of the sailors and troops quartered there. The Attorney-General has been asked for instructions as to the manner of proceeding against such resorts. The State authorities have also been asked to assist in protecting the morals of the soldiers.—Vallejo Times

Both Colton and Riverside will be interested in the announcement coming from Santa Cruz, to the effect that a process has been developed there for making sulphate of potash as a by-product of cement. The estimate being that out of former waste the cement factories can produce \$10,000,000 worth of potash annually, for use either as a fertilizer or in the making of explosives. Santa Cruz advises do not specify whether this is saved from the escaping dust, itself a pest, but the neighboring plants have long labored along that line.—San Bernardino Sun

The Monterey national forest and adjacent country contain features of unusual interest to botanists. This region gains its peculiarly first for the reason that it is located in what botanists term the "transition zone" between the northern and southern flora, and, secondly, that it contains species of trees that exist nowhere else in the whole world. These facts have frequently brought into our midst botanists, dendrologists and other scientists, not only from all parts of the United States, but also Europe as well.—Hollister Free Lance

All spring the Press has been preaching against feeding the professional beggars, as a matter of food conservation. Now the State Council of Defense is making an appeal to the housewives of the State to turn these unwelcome guests of cold. There do, and unless they work they should not eat. Many shall live by the sweat of his brow, and not by the sweat of his tongue. Turn a deaf ear to their hard luck story, and unless they are willing to work for a meal let them go without.—Tracy Press

**THE U BOAT PROBLEM.**

—Carter in Philadelphia Press.

**ALAS! NO BUSINESS MAN**

Such opposition to the appointment of Herbert C. Hoover as food controller as has developed in the United States Senate is based on the plea that he is not a business man, which, alas! is true. By profession he is a mining engineer, and he knows so little about business that, being in Europe when the desperate condition of Belgium was revealed, he abandoned his profession and voluntarily organized the greatest and the most efficient relief work ever known in human history.

Mr. Hoover disbursed tens of millions of dollars, fed millions of people, allayed the suspicions of conqueror and conquered, and was so successful in all respects that when Germany, the super-efficient, was called to put the empire on rations, it went to him for advice and instruction. If, like most members of the Senate, he had only been a politician or a lawyer, there is no telling what prodigies of merchandising and distribution he might have accomplished.

Coming with no better record than this before the experienced captains of industry who dominate the Senate, who can such a man expect? He has no backing but his record, no standing anywhere except as he is acclaimed by humanity, and, of course, no business credentials that would get him past the doorkeeper of a caucus or convention. Knowledge of all this and the right time might have made the starry-eyed population of Belgium and Northern France choose death in preference to relief at the hands of one so poorly equipped for business as the Senate understands business.—New York World

**THE LOAN TO RUSSIA.**

The loan of \$100,000,000, which the United States has just extended to Russia, has more significance than the mere financial facilities offered by the credit to that amount. It has a tremendous political significance, both in the United States and in Russia herself, and its value as the first step towards a new organization of Russia's economic relations with her most powerful economic ally cannot be overestimated.

When the United States, first among the nations of the earth, extended recognition to the new government of Russia, this recognition was not complete. It was merely a formal and official acknowledgment of the change that had taken place. Now the act of recognition is completed. The United States have definitely expressed complete confidence in the regenerated Russia and the significance of this act, which will serve as the most durable foundation of true Russian-American friendship, cannot be gained or overestimated.—Russkoye Slovo

**OAKLAND Opheum**

COLUMBIA Theater

**TODAY 20 YEARS AGO**

Councilman William Watkinson took the initial step toward abating the women's high theater hat annoyance by introducing an ordinance in the City Council prohibiting the wearing of any head dress in theaters or other places of amusement, other than skull caps, lace coverings or small, close-fitting head dresses. Violators of the ordinance were to be fined not more than \$25 nor less than \$10.

Colonel John P. Irish and family passed the summer vacation at Applegate, Placer county.

Mrs. Stuart W. Booth, Mrs. C. G. Wall, Miss Edith Wall and Alfred Wall left for a month's sojourn at Pacific Grove.

Members of the Oakland Elks were served a "bullhead breakfast" in an outing at San Rafael. The spread was given by Frank Ench of East Oakland.

**MEMORY.**

I swore that all the beauty of thine eyes  
Should be a dream forgotten; never-  
more  
Thy presence near, thy hand upon the  
door  
To shake me with remembered  
agonies.

And so I dreamed that all old things  
were slain—  
Then some still night of stars, a  
breath of Spring,  
A fallen rose leaf, bluebirds on the  
wing—  
And all the dead past kindles into  
pain.  
—Charles W. Kennedy in the June  
Scribner.

## "SMILE" MAY DISLOCATE SMILER'S ARM

The dangers of acute "dystocia" in the "sub-glenoid fossa," which lurk within every saloon for the hard-drinker or other citizen who dallies with the flagon of nut-brown ale, were outlined in all their shuddering horror before the closing session of the California State Homeopathic Society's annual convention today by Dr. R. F. Tomlinson of San Francisco.

In man-about-town English, "dystocia" is an expensive name for "pain," while the "sub-glenoid fossa," which sounds like a war maneuver, is that portion of the human anatomy handled in raising babies from the floor, or in expurgated terms, "arm-pits." The gist of the medical man's remarks implied that every time a thirsty citizen raises a glass of "snake-bite" from the polished mahogany of a bar, he takes a chance of dislocating his arm.

Added to this horror is that of reaching for money. This, says Dr. Tomlinson, by induction, is highly dangerous. The sudden impulsive gesture produces a "sub-laxation" of the acromian process with more "dystocia" and a great possibility of not getting the money at all.

The "pie-arm" which is commonly found in boarding-houses and is caused by grabbing at butter, pie and other seasonings out of reach, may also have this form of dislocation. Walking with one's hands in one's pockets, amputation of both arms at the shoulders, or being born without arms are three remedies for the difficulty suggested, aside from operations and medical treatment.

Carrying enough radium in his pocket to disturb registering instruments 100 feet away, and powerful enough to cost a man his life, Dr. A. L. Cowperthwaite, of Los Angeles, stressed the convention at its conclusion on the extent to which rare product is useful in the cure prevention of cancerous growths, according to Dr. Cowperthwaite, use of radium is an adjunct to radiation. He himself reported only failures with the treatment out of 1, and of these six most of them were compelled from one reason or another to stop the treatment. Skin cancers or outside epitheliomas, he declared, were entirely different from internal cancers of the mucous membranes. The medical fraternity, he said, had ceased to "over-capitalise" the value of radium and were now using it for purposes within its range.

Among the speakers at the closing session of the convention were: Dr. Hyman Lischner, San Diego; Dr. E. L. Stambach, Dr. J. W. Henderson and others. At the conclusion of the convention session, the delegates went on a sight-seeing trip of the east-bay district as guests of local members of the society.

## Governor Stephens Tells Homeopaths of Need of Economy

### WOMEN ARE PRAISED FOR AID IN WAR

Declaring that a great national responsibility devolved upon the country's medical profession in the teaching of the youth of the nation hygienic and physical conservation along lines that would enable them to withstand the rigors of war, Governor William D. Stephens last night addressed more than 100 members of the California State Homeopathic Society at their annual convention banquet in the Hotel Oakland on "Preparedness and Potatoes."

The state's chief executive also urged intensive conservation in food matters, along lines already laid down by the state council of defense, and paid high tribute to the work of the women of the state are doing in aiding in the carrying out of the national program of food conservation.

The governor said: "I am glad that an opportunity has been afforded me to be here with you this evening. For the past thirty days I have been a very busy man with the legislation that the legislature body of the state has left for me to consider. I was asked this afternoon if I had considered it from a homeopathic or an allopathic standpoint. I replied that it had depended upon the legislation, for I have handed out both large and small doses."

**HONORS PROFESSION.** "It is good to have a part in this evening's entertainment. I love to be among my fellow beings. Some of the Los Angeles boys who are here know that I love my fellow beings. I am glad to be with those that are fighting for humanity and are helping their fellow man to be something better. I honor the men and women who live for other people. As much as I can I honor the medical profession for what it is doing and is going to do in these years of stress and strain that are with us now."

**SACRIFICES NECESSARY.** "I believe in preparedness. I have preached preparedness because I believe in it, not because I was wiser than any other person, but because I was firmly convinced that there was trouble ahead. I did not anticipate trouble with Germany, but I anticipated that America should prepare. And while I was a member of Congress I was always fighting for preparedness in the United States."

**THE WAR IS NOW ON US.** "The war is now on us. We must realize to the fullest what it means."

### Conservation Urged Save Slice Bread Day

I have preached preparedness because I was firmly convinced that there was trouble ahead.

We can buy and sell as we always have done, but we can also practice economy.

If each family in the United States would save one slice of bread per day it would mean the conservation of 475,000 acres of wheat.

I have fought for womanhood for many years and have at last seen California become the State for women and womanhood—Governor Stephens to Homeopath Society Delegates.

It means that primarily we are helping to preserve democracy. It is our duty as citizens of this free republic to make sacrifices and endure trials and hardships. And I know that when they come you will be ready to meet them. Our boys will go to the front. It is our duty to see that we send them food enough. Men can fight over there, but they must have food. And in this work we must remember to prepare food not only for the boys on the battlefields, but for our own here at home.

"This is a common cause with us all. We must prepare at home to grow something in the fields that can be used by the soldier in active service. I do not believe in parsimony, in urging you to save. We can buy and sell as we always have done, but we can also practice economy. Many of you can realize how much we waste, and I speak principally to the housewives now, when I say that if each family in the United States would save one slice of bread per day from the table it would mean the conservation of 475,000 acres of wheat."

"Friends, we are doing much in California. We have a great state council of defense, founded a few days after the declaration of war by President Wilson. It is composed of thirty men and three women. This council is doing a splendid work. The facts and figures which it is compiling will reveal a wonderful situation."

(Continued on Page 10, Col. 3)

Governor Stephens

## BATTERY TO HOLD DRILLS INFAREWELL

With exhibitions of their military skill at the Municipal Auditorium during the evenings of July 12, 13 and 14, members of Battery B, California Field Artillery, will bid farewell to their home county before receiving federal mustering orders. It is understood that the troops will enter the nation's regular service August 5.

Plans are being carried forward to make of the exhibition an example of Alameda county's ability as represented by the youthful fighting men. Spectacular evolutions will be conducted with the field guns, which, it is expected, will in time see actual service on the western European battlefield. The proceeds from the exhibition will be devoted to the enrichment of the company's mess fund.

Regular service recruiting offices have been crowded during the past few days with men eager to begin their training immediately rather than wait for the regular draft procedure. The navy agencies, according to Chief Electrician E. Bidwell in charge of the office work in Oakland, are from 17 to 35 years. This gives men, eliminated by draft age limits, a chance to enlist.

Announcement was made by naval recruiting men that seven landmen, acquainted with gas-engine workings, are eligible to enter the navy as aviators, at the Pensacola, Fla., training school. One-half of the men will enter the machinists' mate ranks while the other half will be associated with quartermaster's aviation service. The school course is of eighteen months' duration, the school starting every three months. Applicants should apply to the Oakland office, 285 Commercial building, twelfth street and Broadway.

Army announcements contain the interesting feature, overlooked by many, that men outside the draft age limits or too old even to enlist in the regular service may come to Uncle Sam's aid by joining one of the special corps which require technical or special training. The age-limit for these men is 45 years.

Seven men were enlisted yesterday by the army enlistment party, under Sergeant Edward Kneisel. Three men were taken by the navy party. The marine corps men are awaiting next week for their big efforts. That the navy will have its full allotment by September 1 was the confident statement made by Chief Electrician Bidwell today.

**OPERA-BALLET** St. Augustine's Mission is sponsor for a "Grand Opera and Ballet" to be given tonight in Foresters' Hall, Thirteenth and Clay streets. Supervised by Mrs. Ruth Gentry there will be produced "Cinderella" and then a ballet by pupils of the Johnson and McDonald dancing school. It will be the sixth annual entertainment of the mission.

## THREAT NOT ENDORSED BY SOCIALISTS

Warnings spoken by N. A. Richardson, member of the State executive committee of the Socialist party in Contra Costa county, that the California Socialists will withdraw from the national party unless the anti-draft resolution adopted at the Socialist convention on April 7 is repudiated, are futile and meaningless, according to H. C. Tuck, president of the Oakland local.

"Richardson can speak only for himself personally in such a matter," he said this morning. "The Socialist party of California is not run by its executive committee. As a matter of fact, the Socialists all over the United States are at the present time voting on two resolutions—the majority and minority reports presented at the national convention. Both resolutions condemn war in general and advocate peace, but one—the majority report—is more outspoken in its disapproval of the idea of military conscription and military training."

**VISION OF A SHARP.** "There is a sharp division of opinion among Socialists over these reports and the result of the referendum cannot be forecast. State Secretary T. W. Williams of Los Angeles, after consultation with federal officials, refused to mail the official ballots to the different locals in California on the ground that the majority report, printed on the ballots, was treasonable. The vote is being taken just the same, as every Socialist knows the wording of both resolutions through the convention reports."

**THREAT NOT RECEIVED.** CHICAGO, June 7.—Adolph Gerner, secretary of the national Socialist party, said today that N. A. Richardson, who has threatened that California Socialists will withdraw from the national organization, if it does not repudiate the anti-draft resolutions of April 7, does not represent the official California branch of the party.

"I have received no such threat as yet," Mr. Richardson said. Gerner was asked if the party contemplated a repudiation. "Not that I know of," he replied. "We are still voting on it by mail and the vote will not be complete until the end of the month."

**PLAN NEW CAMPS** SAN FRANCISCO, June 7.—Two sites for divisional cantonments for the selective service army, one in Contra Costa county and the other near Standard Union, Calif., are under consideration by western army department officers, according to announcement today by Major General Liggett, commanding the department. Army boards have been named to investigate proposed sites and surveys of both tracts will be made.

American Lake, Washington, is the only cantonment so far located in this department, although a National Guard camp has been announced for Linda Vista, near San Diego.

**FEARS PROSPERITY** ST. LOUIS, June 7.—"There will be no hard times in America on account of the war," Secretary of the Treasury McAdoo told 350 bankers of the Middle West here today. "My only apprehension is that there will be too much prosperity."

Of the ten billions to be raised this year for the war, he believes, or \$1,800,000,000, should be raised by taxation," he said. McAdoo is here in connection with the liberty bond campaign. After delivering two addresses this afternoon before the Associated Advertising Clubs of the World convention and the St. Louis Chamber of Commerce, he will leave for a tour of the South.

**TRACE RADIO SPIES** SAN FRANCISCO, June 7.—Information which may prove valuable in running down the sources of supposed communication with Germany through Mexico via wireless is in the hands of Federal authorities here today. George F. Haller, electrical equipment dealer, has turned over a letter he received from George F. Nolan, now in Mexico, asking quotations of a wireless set with 1350 miles radius, delivered at Mexican coast. The letter carried the most utmost secrecy. Haller refused the order.

**DEFENDS HOUSE** SAN FRANCISCO, June 7.—Protesting that the German House should not be classified as an un-American institution, John Hermann, president of the association, and S. J. Theisen, its attorney, have appeared to United States District Attorney John W. Preston for disapproval of the report of Deputy United States Marshal Allen P. Joy and for a reversal of the order that Frank Mayer, janitor, must move from 136 Gough street, which is within the restricted area around the State Armory at Fourteenth and Mission.

Plymouth Center Social Club gives Red Cross benefit, church evening. Berkeley High Cost of Living Society holds benefit ball, Wilkins Hall, Berkeley, evening.

## BOARD VOTES TO EXONERATE ITS SECRETARY

Official approval of the verdict of the Board of Education exonerating Secretary Daniel W. Pratt from the charges made against him by School Director Harry L. Boyle was given at a meeting of the board last night. A resolution was adopted affirming the findings of the board in committee of the whole. The official resolution adopted at the meeting follows:

"Resolved, That after a full, complete and public hearing of the statements made by Director Boyle concerning the secretary of the board and other employees at the meeting held June 4, it is found that each and every allegation so made by Director Boyle is false and untrue and was made without warrant, justification or provocation, except the statement that the department auto had been used by the secretary out of side of business hours. It is found that the use so made of the department auto by the secretary was with the approval of members of this board and that no improper use of the machine at any time has been made by the secretary."

"It is further found that the secretary and other employees attacked by Director Boyle in the performance of their respective

## TENTH JUROR ACCEPTED IN MOONEY CASE

SAN FRANCISCO, June 7.—Charles L. Beale, a retired accountant, unmarried, living with his mother at 1165 Clement street, was accepted as the tenth juror this morning in the trial of Mrs. Irene Mooney, accused of murder as a result of the preparation parade bomb explosion before Superior Judge Emmet Seawell.

Beale, who has slight difficulty in hearing, said he would give the defendant a fair and impartial trial. In response to questions of both sides, he explained that he had lived eighteen years in the Hawaiian Islands and came to this city three years ago.

duties have the full confidence and commendation of this board and what the attack by Director Boyle was without foundation and was grossly unjust."

## HAVE YOU BOUGHT YOUR LIBERTY BONDS?

### TAFT & PENNOYER COMPANY

## SEMI-ANNUAL EXPOSITION OF WHITE

Now in Progress

The best values in white wares, fabrics and ready-to-wear garments that we have ever offered are displayed in this great semi-yearly event. It has been the largest in the history of the business and well worth the months of labor necessary for its occurrence. Just as good values remain as were displayed on the first day of the exposition of White.

## Traveling Accessories

A CARLOAD OF TRUNKS from the Mendel, Drucker Company has just been received. This firm makes the only really "dust-proof" trunks and the most satisfactory locking and pressing devices.

## CIRCLE ADJOURNS AFTER HARD WORK

The Red Cross circle, captained by Mrs. E. A. Heron assisted by Mrs. Richard M. Lyman and Mrs. Lillian Evans, has adjourned for the summer months. The circle has a membership of 30 and meets once a week. Those who remain in the city are to carry on the work, meeting at the Red Cross headquarters on Fourteenth street. The work in the last three months has been confined to surgical dressings and the following dressings have been made:

Four-inch gauze compresses, 1872; nine-inch gauze compresses, 1248; laparotomy pads, 6x14, 12 boxes; laparotomy pads, 12x12, 48 boxes; laparotomy pads, 6x6, 1440; mullin web, 187; head bandages, 48; knitted sponges, 72.

Following is the list of members: Mrs. E. A. Heron, Mrs. R. M. Lyman, Mrs. Lillian Evans, Mrs. A. T. Ellis, Mrs. J. B. Keating, Mrs. Roberta Bulkeley, Mrs. E. V. White, Mrs. W. W. Garthwaite, Mrs. Woodruff Garthwaite, Mrs. F. M. Butler, Mrs. Louis Garthwaite, Mrs. H. M. Morris, Mrs. G. L. King, Mrs. Prentiss Selby, Mrs. H. E. Richards, Mrs. S. J. Taylor, Mrs. E. C. Morrison, Mrs. A. J. Snyder, Mrs. A. H. Higgins, Mrs. Daniel Hopps, Mrs. Edward Henshaw, Mrs. K. M. Palmer, Mrs. E. N. Engelhardt, Mrs. T. C. Cowan, Mrs. Shirley Houghton, Mrs. Roderick O'Connor, Mrs. Walter Reid, Miss Alice M. Flint, Miss Bessie Palmer, Miss Ethel Parker, Mrs. J. L. Brown.

## STOP LECTURES

Owing to the vacation season, the moving picture lectures at the Oakland Public Museum, will be discontinued through the month of June. The lecture series has proved a great success.

## ALUM WATER FOR GRAY HAIR

Restores Natural Color  
Simple, easy to use and gives quick, perfect, lasting results. Leaves the scalp clean, the hair odorless, clean, fluffy and glossy, and at once restores the original color in shades of light, medium or dark brown, or in blonde shades. Dissolve one bottle of ovolo powder in two ounces of water, moisten the hair with the solution, and while damp, rinse the hair in alum water (two teaspoons of powdered alum to one quart), then rinse in plain water, then dry the hair. That is all it acts like magic. You can have your hair a beautiful natural color for the balance of life. Ovolo powder solution is inert and always strictly harmless—a child can drink it. Ovolo powder is sold at drug stores.—Advertisement.

## PARADE TO SHOW OLD-TIME AUTOS

Reminiscent of the early days of motoring will be the turn-out of time motor cars at a group-breaking exercise of the Fageol Motor Company on Saturday. Cars of ten to fifteen years of age have been resurrected and will chug and wheeze through the streets of Oakland in company with the latest models, as an illustration of the advance the automobile industry has made since the first automobile made its appearance.

Old-time buses, long since supposed to be out of the running for good, will be seen, both in the parade and in the race between cars of ancient vintage which will be a feature at the exercises at the Fageol factory site later on Saturday. The parade will start at 10:30 a. m. and will take the route of the early automobile drive of the city, a picture which has just come to light illustrating a club run of the Oakland and San Francisco Automobile club in this city in 1909, as there are about a half dozen cars in the event, and those of the very earliest types, the photograph now has a decided historical character.

Veiling in public interest with the racing program is the taking of the entire acre of ground at the factory site during the afternoon. This will be accomplished through the courtesy of the Giant Powder Company, which will have one of its experts in charge to take charge of the work of planting the field and setting off the charge. Ample protection for the public has been provided so that the people who witness this thrilling "stunt" may do so with perfect safety.

The demonstration of the new Fageol tractor at the factory site should prove attractive to a great number of people and especially to farmers and agriculturists and those interested in the tractor. The factory will start to produce its new type tractors as soon as the plant is ready for operation.

The new Fageol plant will be located on a ten-acre site at 107th and the new Fageol boulevard. The property is part of the Hollywood Tract, owned by the M. T. Minney company, and is an ideal factory and residential location.

The following program will be carried out next Saturday: At 12:15 o'clock, business men's lunch, Hotel Oakland; 1:45, automobile parade starts from Hotel Oakland; 2:45, address by John L. Davis, Mayor of the city of Oakland; 3:00, address by Joseph H. King, President of the Chamber of Commerce of Oakland; 3:40, ground-breaking; 3:50, motor car races (cars 15 years or older participating); 4:00, high gear slow race; 4:15, speed race (two Fageol motor cars participating); 4:30, demonstration of Fageol tractor.

## HURT IN ACCIDENT

With both arms fractured and suffering from extreme shock, Mrs. E. H. Haskell is in her home, 323 Prentiss street, today, following an automobile accident at Thirty-fifth avenue and the downtown boulevard. Her car crashed into that driven by P. W. Gehrig, 3382 East Fourteenth street, yesterday. Both machines were badly damaged. Gehrig was not seriously injured and was able to proceed to his home.

## DIVORCE SOUGHT

Because dinner, prepared at 8 o'clock, was not ready at 10 o'clock, Carl L. Friberg complained, according to his wife, Hildegard E. Friberg, who yesterday filed suit for divorce in the Superior Court, charging cruelty. Mrs. Friberg asks for the custody of their minor child and \$15 a month alimony. Friberg is a contracting painter.

## SMITH ARRAIGNED

Frank Smith, alleged slayer of John Marovich, one-time proprietor of the old Gas Kitchen cafe in April, 1907, was arraigned on a charge of murder before Police Judge Mortimer Smith today and his preliminary hearing was set for June 13.

According to Inspector St. Clair Hodgkins, Smith has wandered about the country and narrowly missed arrest on several occasions. He was while working as a waiter in a Chicago restaurant a customer recognized him, Smith said, but he denied his identity and next day left the city. At St. Louis he was arrested through a ruse and did not think that he had been identified.

## TWO MEN HELD

SAN FRANCISCO, June 7.—(Nicol) Moskako, 25 years old and Charles Williams, 17 years old, were arrested early today in a lot at Pacific and Sansome streets by Detectives O'Riley and Egan and booked on route to the United States marshal's office. The police say they saw Moskako and Williams sell and quip on buses to three soldiers in uniform.

## YOUTH IS SUICIDE

Leaving no explanation for his act, Jerome F. Gladino, a youth who boarded in the home of Mrs. A. Cohen at 355 Twenty-sixth street, committed suicide last night by hanging himself to a bed post in his room. He was found by his landlady and a physician was summoned, but life was extinct when he arrived. The body is at the morgue.

## RECITAL PLANNED

Miss Vinnie U'rey, a talented violinist from Kings City, who has been pursuing advanced studies with Alexander Stewart in Oakland for the past year, will be heard in recital on Saturday afternoon in Maple Hall building, assisted by Mrs. Ethel Long Martin, pianist, and Mrs. W. W. Randolph, contralto. The following program will be given:

Sonata for piano and violin.....Gade  
Song.....Pescia  
In Springtime.....Pescia  
Im Herbst.....Franz  
The Morning Wind.....Brancaccio  
Piano  
Gondoliera.....Liszt  
Sixth Hungarian Rhapsody.....Liszt  
Rondino.....Beethoven  
Liebesfreud.....Kreutzer  
Schon Rosmarin.....Donizetti  
Aria from "La Favorita".....Donizetti  
Violin  
Meditation from "Thais".....Massenet  
Need from "Home".....Smetana

## NEED NO CHINESE

Central labor will not be needed in California for the cultivation of the soil and the harvesting of crops, according to George L. Bell, executive officer of the State Immigration and Housing Commission. Inspectors of the commission have made a careful survey of practically all agricultural districts and report conditions as favorable.

"The appeal of patriotism and the high cost of living," said Bell, "combine to bring out more men and a large representation of women and children in the fields this year."

## EDITORIAL

Most people like to go into a clean, bright store, meet a quick, active, courteous salesman and get, without comment, exactly what they ask for.

The public, as a rule, do not care for suggestions; they prefer not to be "introduced" to "something better," and have no time to listen to a recital of the merits of Dr. Camner's Old-Fashioned Corn Cure when they ask for a 35c tooth brush.

The age of substitution in the drug business and of persuasive salesmanship has passed. Today the store that does the business is the store that serves the people want to be served.

As far as Bowman's is concerned, you will observe, if you are one of our customers, that the only place of the skin and increases the resistant powers of the body against colds.

## A SEA SALT BATH

Did you every try sea salt with your bath? It's exhilarating, healthful and very pleasing. It enters the pores of the skin and increases the resistant powers of the body against colds.

The sea salt we sell is put up especially for our trade. It is obtained from the evaporation of sea water, after which the crystals are dissolved in fresh water and recrystallized.

It is put up in three forms—a large carton for 20c, a 25-pound sack for 65c and a 50-pound sack for \$1.00.

## THE KIND OF DRUGS THAT WE CARRY

The Kind That Are Safe to Buy

You might just as well try to compare the price of horses as to compare prices on such articles as witch hazel and peroxide of hydrogen. The other day one of our customers told us that she could get a bottle of peroxide for 20c, same size as we charge 25c for.

If the facts were known we would probably sell this cheaper grade of peroxide for 15c; however we prefer not to carry it.

There are many grades of quality of nearly all drugs. We carry the best grades only and allow no one to undersell us, quality considered.

## A COLD CREAM THAT DOES NOT TURN RANCID

Whether you know it or not, it is a fact that cold cream frequently becomes rancid.

We make a cold cream, however, that never becomes rancid, and for this reason it should be of interest to you.

It is called Rose Cold Cream and comes both in tubes and jars, as you prefer.

You'll like its fragrance—it is perfumed with rose—and you'll appreciate its quality. Our very best trade uses it constantly—25c and 50c.

## KODAK SNAPSHOTS DEVELOPED BY EXPERTS

Results That Make Kodaking Worth While

Why is it that our customers in the kodak department are getting such superior work in the developing and printing of films?

We will tell you why. It is because every individual film receives the personal attention of an expert.

Our films are not all dumped into a tank in a batch and taken out in a heap. Every separate film is handled individually and developed to its complete possibilities under the direct supervision of experts who do nothing else.

## VACATION MAIL ORDERS

Uncle Sam is a busy man these days, but he is handling the mail just the same as ever with the old reliable parcel post going its steady duty for thousands of people who order by mail.

Our Mail Order Department is ready to render its usual prompt vacation time service, getting out orders the day they're received. Therefore, when

## This Grand Piano Fits Your Home and Purse

In the past few people owned Grand Pianos because of the size and the cost. Today there is a big demand for a small Grand built on artistic lines. The Aldrich Baby Grand was designed to fill this fast growing demand. When placed in a corner of the room, it occupies no more space than an Upright—it costs no more than a good Upright.

Price \$485  
On the Easiest Terms

We also carry Steinway and other Pianos, Pianola Pianos, Victrolas and Records, Player Music Ukuleles, Musical Instruments, Sheet Music.
